Question 1

Question Type: MultipleChoice

Which two statements are TRUE regarding messaging adapters in Oracle Integration (OIC)?

Options:

A- Both the Apache Kafka and OCI Streaming adapters support XML, JSON, and Avro message formats.
B- It is not mandatory to install a Connectivity agent to use the OCI Streaming Adapter for Inbound polling.
C- The Apache Kafka Adapter can be configured to support Transactions in case of Producer.
D- The OCI Streaming Adapter does not support consuming messages from a specified consumer group.

Answer:

A, C

Question 2

Question Type: MultipleChoice

Which statements are TRUE with regard to SOAP and the advantages it provides? Choose THREE.

Options:

A- SOAP clients can easily hold stateful references to remote server-side SOAP objects.
B- SOAP is platform independent and programming language independent.
C- SOAP typically leverages XML-based payloads to communicate between two client machines across any modern network.
D- SOAP commonly serves as a cleaning agent that removes excess data from the transmissionprotocol.
E- SOAP provides flexibility for message formatting allowing for loose coupling between a client and a server.
F- SOAP over HTTP is typically not blocked by firewalls and proxy servers.

Answer:

B, C, F

Question 3

Question Type: MultipleChoice

Which operation is NOT supported by an Oracle Integration Cloud (OIC) connection resource configured with FTP Adapter in the Invoke role?

Options:

A- Write File
B- Read File
C- Read File in Segments
D- Delete File
E- Download File

Answer:

C

Question 4

Question Type: MultipleChoice

You have an Oracle Integration (OIC) synchronous integration flow that updates external systems with several invocations. However, several of your OIC integration clients are reporting that they are experiencing timeouts waiting for the response confirmation from this processing. Which is a legitimate strategy to mitigate this issue?

Options:

A- Change the implementation logic to invoke multiple fine-grained external API calls within a single loop.
B- Change the design implementation strategy to an asynchronous flow that provides a separate notification to clients when the processing is complete.
C- Increase the blocking timeout within the OIC integration settings to allow for extended time.

Answer:

B

Question 5

Question Type: MultipleChoice

Which statement about the Oracle Integration (OIC) connectivity agent is NOT valid?

Options:

A- You must create an agent group before you can run the connectivity agent installer.
B- Creating the agent group automatically creates an OAuth client application.
C- You can create up to five agent groups for each OIC instance.
D- The connectivity agent can use Basic Authentication or OAuth 2.0 token-based authentication when invoking OIC endpoints.

Answer:

B

Question 6

Question Type: MultipleChoice

You will be creating and configuring a Connection resource using an Oracle Integration (OIC) File Adapter. Which set of operations are supported in the Invoke role when leveraging access via a Connectivity agent?

Options:

A- Read, write, list, move
B- Read, write, list
C- Read, write, list, move, download, delete
D- Read, write, list, move, download
E- Read, write

Answer:

C

Question 7

Question Type: MultipleChoice

Which Oracle Integration Cloud (OIC) XPath function can be used to retrieve data from an OIC lookup within the Data Mapper tool?

Options:

A- get-value-from-lookup
B- lookupValue
C- get-content-as-string
D- getLookup

Answer:

B

Question 8

Question Type: MultipleChoice

You have built an integration that includes an ERP Cloud Adapter connection. After the development has been completed, there is now a requirement to include newly added custom objects and custom attributes as part of the mappings. Which is the most efficient way to handle this requirement?

Options:

A- Check the Refresh Metadata option for the ERP Cloud Connection, navigate back to your integration, then delete and recreate the map action to include the new custom objects and attributes.
B- Check the Refresh Metadata option for the ERP Cloud Connection, navigate back to your integration, then edit the map action to include the new custom objects and attributes.
C- Delete the invoke action to the ERP Cloud, re-create it, then edit the map action to include the new custom objects and attributes.
D- Delete the integration and recreate it to include the new custom objects and attributes in the mapaction.

Answer:

B

Question 9

Question Type: MultipleChoice

Which two statements are TRUE regarding messaging adapters in Oracle Integration (OIC)?

Options:

A- Both the Apache Kafka and OCI Streaming adapters support XML, JSON, and Avro message formats.
B- It is not mandatory to install a Connectivity agent to use the OCI Streaming Adapter for Inbound polling.
C- The Apache Kafka Adapter can be configured to support Transactions in case of Producer.
D- The OCI Streaming Adapter does not support consuming messages from a specified consumer group.

Answer:

A, C

Question 10

Question Type: MultipleChoice

As an Oracle Integration Cloud (OIC) specialist, you are tasked with implementing a scheduled integration between two enterprise applications. The client requires that the integration be run every weekday at 3:00 PM to synchronize data between the systems. Which advanced scheduling configuration expression will you use?

Options:

A- 'FREQ=DAILY;BYDAY!=SA,SU;BYHOUR=15'
B- 'FREQ=WEEKLY;BYDAY=MO-FR;BYHOUR=15'
C- 'FREQ=DAILY;BYDAY=MO-FR;BYHOUR=15'
D- 'FREQ=WEEKLY;BYDAY=MO,TU,WE,TH,FR;BYHOUR=15'

Answer:

C

Question 11

Question Type: MultipleChoice

Which statement is NOT true about schedule parameters in Oracle Integration Cloud (OIC) integration flow?

Options:

A- Updates to schedule parameters value can be made manually before submitting an ad hoc request.
B- Updates to schedule parameters value made dynamically in an Assign action will not persist on to the next instance run of the integration.
C- Schedule parameters are always visible as an additional data source in the sources section of the mappers and expression editors within the integration.
D- Updates to Schedule Parameter values can be made manually when starting a schedule.

Answer:

B
