C

## Question 6

---

**Question Type:** MultipleChoice

---

A company wants to issue a tool with an hourly rate to a work order. Which applications can be used to do this?

**Options:**

---

**A-** Inventory | Tools

**B-** Stocked Tools, Inventory

**C-** Tools, Work Order Tracking

**D-** Stocked Tools, Work Order Tracking

**Answer:**

---

A

## Question 7

---

**Question Type:** MultipleChoice

---

A company orders and receives a case containing 36 light bulbs which are issued one at a time. What is created for this relationship?

**Options:**

---

**A-** Multiplier

**B-** Issue Unit

**C-** Issue Type

**D-** Conversion

**Answer:**

---

B

### **Explanation:**

---

You order light bulbs in bulk and the unit of measure is a case, with a quantity received of 36. However, when you issue the item, you issue it one at a time. In this case, you can define a measure unit of CASE and another measure unit of EACH. You define a conversion ratio from CASE to EACH with a factor of 36. When you receive an order of bulbs into a storeroom, the received order unit of one CASE is converted into the storeroom issue unit of 36 EACH.

## **Question 8**

---

### **Question Type: MultipleChoice**

---

A company has an asset that has failed and an administrator needs to create a work plan that includes exact steps and descriptions that need to be followed to get the asset in operating status. Which option does the administrator need to follow?
