Question 1

Question Type: MultipleChoice

In the event of an Information security incident, system users' roles and responsibilities are to be observed, except:

Options:

- A) Report suspected or known incidents upon discovery through the Servicedesk
- B) Preserve evidence if necessary
- C) Cooperate with investigative personnel during investigation if needed
- D) Make the information security incident details known to all employees

Answer:

D

Question 2

Question Type: MultipleChoice

A couple of years ago you started your company which has now grown from 1 to 20 employees. Your company's information is worth more and more and gone are the days when you could keep control yourself. You are aware that you have to take measures, but what should they be? You hire a consultant who advises you to start with qualitative risk analysis?

Options:

- A) This analysis follows a precise statistical probability calculation in order to calculate exact loss caused by damage.
- B) This analysis is based on scenarios and situations and produces a subjective view of the possible threats.

Answer:

B

Question 3

Question Type: MultipleChoice

In the event of an Information security incident, system users' roles and responsibilities are to be observed, except:

Options:

- A) Report suspected or known incidents upon discovery through the Servicedesk
- B) Preserve evidence if necessary
- C) Cooperate with investigative personnel during investigation if needed
- D) Make the information security incident details known to all employees

Answer:

D
