Question 1

Question Type: MultipleChoice

Which three statements are true about initial measurements, final measurements, and usage? (Choose three.)

Options:

- A- Usage is a synonym for bill determinants.
- B- The initial measurement data can be optionally stored in Raw format.
- C- A service point can have more than one initial measurement for the same period, but only one final measurement.
- D- Final measurements can be directly edited or updated by users or by automated processes as required.
- E- Usage is loaded in the application to generate final measurements.

Answer:

C, D, E

Question 2

Question Type: MultipleChoice

What correctly describes the possible causes of price proration?

Options:

- A- change in Bill Factor only
- B- changes in Rate Schedule and Bill Factor only
- C- change in Rate Schedule only
- D- change in Rate Version Calculation Group only
- E- changes in Rate Version Calculation Group and Bill Factor only

Answer:

B

Question 3

Question Type: MultipleChoice

When a service agreement is created, it is based on a template called the Service Agreement Type (SA Type) and values may be defaulted from a Start Option.

Which three attributes can get defaulted from a Start Option? (Choose three.)

Options:

- A- Terms and Conditions
- B- Service to be billed
- C- Contract Quantities
- D- CIS Division
- E- Rate

Answer:

A, B, C

Question 4

Question Type: MultipleChoice

What can cause multiple bill lines for a rate component to be produced in a bill calculation header?

Options:

- A- changes in Rate Schedule and Bill Factor
- B- changes in Rate Version Calculation Group and Bill Factor
- C- change in Bill Factor
- D- change in Rate Version Calculation Group
- E- change in Rate Schedule

Answer:

A

Question 5

Question Type: MultipleChoice

Which three statements are true about the different types of measuring components? (Choose three.)

Options:

- A- Seconds-per-interval (SPI) is one of the attributes of scalar measuring components.
- B- Only physical measuring components reference a device configuration.
- C- The terms register and channel are synonyms for measuring component.
- D- The measuring component types are physical, standalone, scratchpad, and TOU.
- E- Scalar measuring components contain a single measurement for an arbitrary period of time.

Answer:

C, D, E

Question 6

Question Type: MultipleChoice

What contains the details of how a bill was calculated and how it will be printed on a bill?

Options:

- A- Calculation Rules
- B- Rate Schedule

C- Service Agreement

D- Bill Segments

E- Bill

Answer:

D

Question 7

Question Type: MultipleChoice

How many devices can be installed at a service point at an instance in time?

Options:

A- exactly one device

B- up to three devices

C- one for each service type

D- one for each measuring component

Answer:

A

Question 8

Question Type: MultipleChoice

A usage subscription must exist before usage transactions can be calculated for a specific service point.

Where do you configure the usage recipient?

Options:

A- in the Usage Rule Type

B- in the Service Point Type

C- in the Device Type

D- in the Measuring Component Type

E- in the Usage Subscription Type

Answer:

E

Question 9

Question Type: MultipleChoice

Measuring components are either subtractive or consumptive.

Which statement correctly describes these two concepts?

Options:

- A-** Subtractive measuring components are associated only with water service, whereas consumptive measuring components are for gas and electric services.
- B-** Subtractive measuring components are used to measure demand, whereas consumptive measuring components are used to measure how much was consumed since the previous reading.
- C-** Subtractive measuring components are associated with deductive meters, whereas consumptive measuring components are not.
- D-** A subtractive measuring component's consumption for a given period of time is the end measurement minus the start measurement. A consumptive measuring component's consumption is simply the measurement itself, and represents the consumption for the period of time since the previous measurement was taken.

Answer:

B

Question 10

Question Type: MultipleChoice

Approval Profiles control which aspects of an Adjustment?

Options:

- A- whether current and/or payoff balance are affected by the adjustment
- B- control how adjustments are approved
- C- if an adjustment requires approval before it's frozen
- D- information defaulted on an Adjustment
- E- whether the adjustment should appear on the customer's next bill

Answer:

A

Explanation:

%20Adjustment%20Approval.pdf

Question 11

Question Type: MultipleChoice

Which two statements about usage subscription types are correct? (Choose two.)

Options:

- A- Usage subscription types define the main billing contact.
- B- Usage subscription types define the time zone.
- C- Usage subscription types define the valid service point types.
- D- Usage subscription types define the recipient of the usage.

Answer:

B, C

Question 12

Question Type: MultipleChoice

How many derived values can a final measurement have in addition to the primary measured value?

Options:

A- 2

B- 15

C- 10

D- 5

Answer:

C
