# Question 1

**Question Type:** MultipleChoice

Which migration modes are supported by DTS (Data Transmission Service)? (Number of correct

## Options:

**A-** From Alibaba Cloud RDS to other database systems

**B-** From RDS to an ECS-based database

**C-** From a different cloud provider to Alibaba Cloud

**D-** From an RDS database, back to itself

## Answer:

A, B, C

## Explanation:

https://www.alibabacloud.com/help/doc-detail/59133.htm?spm=a2c63.l28256.b99.3.467e7530gZ9M6o

# Question 2

**Question Type:** MultipleChoice

Which of these are NOT good use cases for DTS (Data Transmission Service)? (Number of correct

answers: 2)

## Options:

**A-** Incremental synchronization for disaster recovery

**B-** Full database synchronization for database migration

**C-** Undoing changes made to a database by mistake

**D-** Saving database logs

## Answer:

C, D

# Question 3

**Question Type:** MultipleChoice

Which of the following databases are supported by DTS (Database Transmission Service)? (Number

of correct answers: 3)

## Options:

**A-** MySQL

**B-** SQL Server

**C-** PostreSQL

**D-** DB2

## Answer:

A, B, C

## Explanation:

https://www.alibabacloud.com/help/doc-detail/176064.htm?spm=a2c63.l28256.b99.7.13c27142yYyvXz

# Question 4

**Question Type:** MultipleChoice

Which of the following are NOT true, regarding DTS (Data Transmission Service)? (Number of correct answers: 2)

### Options:

**A-** The source and destination database must use the same database engine

**B-** The source and destination database must both have a database user which DTS can use

**C-** If the source database is not on Alibaba Cloud, it must be Internet accessible so that DTS can connect to it

**D-** DTS is designed for file synchronization

### Answer:

A, D

# Question 5

**Question Type:** MultipleChoice

Your DTS (Data Transmission Service) migration has failed halfway through: what options do you

have? (Number of correct answers: 2)

### Options:

**A-** Delete your DTS instance and start over

**B-** Restart the migration task from the console

**C-** Your database can't be migrated: you need to abandon the migration

**D-** You need to switch to ADAM, as DTS cannot complete the migration

### Answer:

B, D

## Question 6

**Question Type:** **MultipleChoice**

Alibaba Cloud DTS (Data Transmission Service) can only migrate between databases that are hosted

on RDS.

## Options:

**A-** True

**B-** False

## Answer:

B

## Explanation:

Alibaba Cloud Data Transmission Service (DTS) helps you migrate data between data stores, such as relational databases, NoSQL databases, and data warehouses. You can use DTS to migrate your data to Alibaba Cloud or between combinations of cloud and on-premises data systems. .

# Question 7

**Question Type:** MultipleChoice

You have a client that wants to move from another cloud provider's database service to RDS. Which of these is the best way to move their database to Alibaba Cloud?

### Options:

**A-** Use DTS (Data Transmission Service)

**B-** Make a full physical backup of their database and copy it into OSS

**C-** This type of migration isn't possible

**D-** Migrate the entire VM hosting the database

### Answer:

A

## Question 8

**Question Type:** MultipleChoice

Which of the following is NOT true, regarding DTS (Database Transmission Service)?

## Options:

**A-** DTS cannot be used for incremental database synchronization

**B-** DTS supports multiple database engines

**C-** DTS can migrate both data and table schema

**D-** DTS works for database both on and off Alibaba Cloud

## Answer:

A

## Explanation:

# Question 9

**Question Type:** **MultipleChoice**

You are using DTS to migrate from a MySQL database installed on an ECS instance to a target

database on RDS. In the DTS console, which of these is the correct "Instance Type" for the database?

### Options:

**A-** ECS-based Databases

**B-** Express Connect DB

**C-** RDS Instance

**D-** ApsaraDB MongoDB

### Answer:

C

### Explanation:

https://www.alibabacloud.com/help/doc-detail/96154.htm?spm=a2c63.p38356.b99.118.59de5d1aWUVErx

## Question 10

**Question Type:** MultipleChoice

Your client is having trouble connecting DTS to their source database in their local datacenter, why might this be?

### Options:

**A-** Their database isn't on Alibaba Cloud already so it cannot be accessed by DTS

**B-** Their database is not accessible from the Internet, so DTS cannot access it

**C-** Their database must not include the special DTS compatibility mode

**D-** Their database is an inverted column store, which is not supported

### Answer:

B

## Question 11

**Question Type:** **MultipleChoice**

You want to migrate from MySQL to PostgreSQL: is this supported by DTS?

## Options:

**A-** No, this type of migration isn't supported

**B-** You can migrate between MySQL and Oracle but not between PostgreSQL

**C-** Yes, migration between different types of databases is supported by DTS

## Answer:

C

## Explanation:

https://www.alibabacloud.com/help/doc-detail/176064.htm?spm=a2c63.p38356.b99.7.3191591dPlcLJa
