Question 1

Question Type: MultipleChoice

Alibaba Cloud DTS (Data Transmission Service) is a file migration tool.

Options:

A- True
B- False

P2P exams

Answer:

B

Explanation:

DTS is a data migration, integration, synchronization and change tracking tool.

Question 2

Question Type: MultipleChoice

P2P exams

From which of the following data sources or databases can Data Lake Analytics (DLA) read data for analysis? (Number of correct answers: 6)

Options:

A- MySQL
B- Oracle
C- OTS
D- MongoDB
E- AnolyticDB
F- HOLO
G- OSS

Answer:

A, B, C, D, E, G

Question 3

Question Type: MultipleChoice

Which of the following are the advantages of cloud databases over self-managed databases? (Number of correct answers: 3)

Options:

A- Stronger service level agreement (SLA)
B- Integrated operations and maintenance (O&M), as well as easier management
C- High availability and comprehensive backup and monitoring capabilities
D- High costs

Answer:

A, B, C

Question 4

Question Type: MultipleChoice

Alibaba Cloud DTS (Data Transmission Service) supports both full database migration and incremental synchronization.

Options:

A- True
B- False

Answer:

A

Explanation:

Question 5

Question Type: MultipleChoice

Which of the following statements is NOT correct about the benefits you can gain through PolarDB?

Options:

A- Large storage space
B- Elastic scaling within minutes
C- When you add a read-only node in an ApsaraDB for PolarDB cluster, you only need to pay for computing resources
D- Millisecond-level latency in physical replication
E- locked backup

Answer:

E

Question 6

Question Type: MultipleChoice

PolarDB for MySQL archive databases use log-structured merge-trees (LSM trees) and the Zstandard (ZSTD) data compression algorithm to increase the data compression ratio. How much storage can be saved, at most?

Options:

A- 40%
B- 50%
C- 60%
D- 70%

Answer:

D

Question 7

Question Type: MultipleChoice

Why is ApsaraDB for PolarDB better than other traditional database engines? (The number of answer: 3)

Options:

A- When you purchase a PolarDB cluster, you don't need to specify the storage capacity you want to purchase
B- PolarDB supports both OLTP and OLAP scenarios very well
C- The PolarDB database engine won't require you to replicate data when adding read-only nodes
D- ApsaraDB for PolarDB uses the pay-as-you-go billing method, therefore you only need to pay for the storage resources you actually use

Answer:

A, C, D

Explanation:

https://www.alibabacloud.com/help/doc-detail/172293.htm?spm=a2c63.p38356.b99.81.101b333ePsD0YF

Question 8

Question Type: MultipleChoice

What is the maximum storage size that PolarDB currently provides?

Options:

A- 1TB
B- 10TB
C- 50TB
D- 100TB

Answer:

D

Question 9

Question Type: MultipleChoice

If you have a development team with several developers working on cloud databases, which product is recommended to use for development collaboration?

Options:

A- DMS
B- DBS
C- DTS
D- DAS
E- DG

Answer:

A

Explanation:

A series of step-based solutions for R&D processes, data security, and data development are provided in the Data Management (DMS) console to get you started with DMS.

Question 10

Question Type: MultipleChoice

You need to migrate a database that has a storage capacity of 50 GB to the cloud and can tolerate a service downtime of half an hour. In this case, Which option best migration methods is the optimal choice to migrate data to the cloud in terms of stability and availability?

Options:

A- Full backup and incremental backup
B- Full backup only
C- Logical migration tools
D- Incremental backup only

P2P exams

Answer:

C
