# Question 1

---

## Question Type: MultipleChoice

---

What is wrong with this statement: "We delivered two services last year. Even though each service was delivered by a separate project team in a different location and at a different time, I am confident that the services will be reasonably interoperable because each project team was asked to use the same design standards."

### Options:

---

- A) The statement is incorrect because services should never be delivered by different project teams.
- B) The statement is incorrect because services rely on post-implementation integration effort in order to achieve interoperability, not design standards.
- C) The statement is incorrect because SOA delivery projects require that services be created at exactly the same time in order to guarantee interoperability.
- D) There is nothing wrong with this statement.

### Answer:

---

D

## Question 2

---

### Question Type: MultipleChoice

---

What is wrong with this statement: "We delivered two services last year. Even though each service was delivered by a separate project team in a different location and at a different time, I am confident that the services will be reasonably interoperable because each project team was asked to use the same design standards."

### Options:

---

- A) The statement is incorrect because services should never be delivered by different project teams.
- B) The statement is incorrect because services rely on post-implementation integration effort in order to achieve interoperability, not design standards.
- C) The statement is incorrect because SOA delivery projects require that services be created at exactly the same time in order to guarantee interoperability.
- D) There is nothing wrong with this statement.

### Answer:

---

D
