Question 1

Question Type: MultipleChoice

What means "Forking" the Hyperledger Fabric Github repository? (Select two.)

Options:

- A) Fork will fork the entire repository including all the branches.
- B) Forking is not allowed in Github.
- C) Moving this repository to your GitHub account and removing contents from previous repository.
- D) Fork will fork the specific repository without all the branches.
- E) Creating a copy of this repository under your GitHub account.

Answer:

A, E

Explanation:

Forking' the repository means creating a copy of this repository under your GitHub account. Note that the fork will fork the entire repository including all the branches.

Question 2

Question Type: MultipleChoice

You're currently investigating Hyperledger and would like to confirm that there is a set of collaboration tools for building blockchain business networks that accelerate the development of smart contracts and blockchain applications.

What is the solution that meets the requirement?

Options:

- A) Hyperledger Explorer
- B) Hyperledger Composer
- C) Hyperledger Quilt
- D) Hyperledger Cello

Answer:

B

Explanation:

Composer (contributed by IBM and Oxchains) is a set of collaboration tools for building blockchain business networks that accelerate the development of smart contracts and blockchain applications, as well as their deployment across a distributed ledger.

Question 3
