## Question 1

---

**Question Type:** MultipleChoice

---

To deploy Istio on ACK, the version of the Kubernetes cluster is V1.10.4 or later.

**Options:**

---

**A-** True

**B-** False

**Answer:**

---

A

## Question 2

---

**Question Type:** MultipleChoice

---

Can ACK register k8s cluster which is running on IDC or other cloud provider?

**Options:**

---

**A-** True

**B-** False

**Answer:**

---

A

## Question 3

---

**Question Type:** MultipleChoice

---

Does an agent need to be installed to target k8s cluster under register cluster solution?

**Options:**

---

**A-** True

**B-** False

**Answer:**

---

A

## Question 4

---

**Question Type:** MultipleChoice

---

Does k8s cluster running on IDC but it can be scale up pods to Alibaba Cloud ASK (Serverless cluster) ?

**Options:**

---

**A-** True

**B-** False

**Answer:**

---

A

## Question 5

---

**Question Type:** MultipleChoice

---

Does multi-cluster separate running on Alibaba Cloud and IDC can be managed by Federation?

**Options:**

---

**A-** True

**B-** False

**Answer:**

---

A

## Question 6

---

**Question Type:** MultipleChoice

---

Istio is a service mesh that makes up for the disadvantages of the distributed microservice architecture in O&M, debugging, and security management. It also supports load balancing, service-to-service authentication, and monitoring, all without changes to microservices.

**Options:**

---

A- True

B- False

**Answer:**

---

A

## Question 7

---

**Question Type: MultipleChoice**

---

To deploy Istio, at least\_\_\_\_worker nodes are configured for the Kubernetes cluster.

**Options:**

---

A- 1

B- 2

C- 3

D- 4

**Answer:**

---

C

## Question 8

---

**Question Type: MultipleChoice**

---

What are the scenarios in managing multiple K8s Cluster in Hybrid & Multi Cloud Environment?

**Options:**

---

**A-** Kubernetes Cluster Federation

**B-** Auto Scaling to Serverless Kubernetes

**C-** Register External Kubernetes Cluster to be managed from Alibaba Cloud Container Service Console

**D-** Manage every clusters manually but to connect to the same image repository

**Answer:**

---

A
