[ha#:~:text=To%20protect%20your%20cluster%20master,second%20cluster%20in%20another%20zone.](https://cloud.ibm.com/docs/openshift?topic=openshift-ha#:~:text=To%20protect%20your%20cluster%20master,second%20cluster%20in%20another%20zone.)

## Question 2

---

**Question Type:** MultipleChoice

---

What are the two ways for a customer with the Advanced or Premium support plan to obtain support?

### Options:

---

- A- phone
- B- Slack
- C- chat
- D- WhatsApp
- E- on-site

### Answer:

---

A, C

### Explanation:

---

## Question 3

---

**Question Type:** MultipleChoice

---

Which IBM Cloud offering allows clients to determine if their VMware infrastructure and workloads are meeting compliance requirements, assess potential cyber risk and determine what's changed in their hybrid cloud environment?

**Options:**

---

- A- IBM Watson for Cybersecurity
- B- Managed Network Security Services
- C- Caveonix RiskForesight
- D- Hytrust CloudControl

**Answer:**

---

C

## Explanation:

---

<https://www.ibm.com/cloud/blog/announcements/caveonix-riskforesight-is-now-generally-available-on-ibm-cloud-for-vmware-solutions#:~:text=RiskForesight%20provides%20IBM%20customers%20with,from%20Cyber%20and%20Compliance%20risks.>

## Question 4

---

### Question Type: MultipleChoice

---

Which statement best describe the purpose of IBM Cloud Paks?

### Options:

---

- A- They provide a licensing model for IBM software on IBM Cloud.
- B- They provide an open, faster and more secure way to manage core business applications in any cloud.
- C- They provide a bundle of ISV software to supplement IBM Cloud services for Big Data.
- D- IBM Cloud in a box that can be run in customer or co-location datacenters.

### Answer:

---

C

## Question 5

---

**Question Type:** MultipleChoice

---

What action must a customer take for all software offerings in the IBM Cloud catalog?

**Options:**

---

- A- Create a support ticket to have the software provisioned.

- C- Manage the deployment and configuration on their own IBM Cloud compute resources.
- D- Set spending limits and configure spending alerts.

**Answer:**

---

C

## Question 6

---

**Question Type: MultipleChoice**

---

A client is starting an application modernization project using machine learning to provide predictive pricing to insurance customers with a web application. Which IBM Cloud resource should be the starting point to provide guidance on code patterns for this web application?

**Options:**

---

- A- IBM Cloud Architectures
- B- IBM Community Portal
- C- GitHub
- D- IBM Cloud Pak for Development

**Answer:**

---

A

## Question 7

---

**Question Type: MultipleChoice**

---

A client needs a solution for storing electronic health records (EHR) using IBM Cloud Services. With which mandatory industry compliance must IBM Cloud services be compliant?

**Options:**

---

- A- HIPAA
- B- ISO27001
- C- pci dss
- D- FFIEC

**Answer:**

---

A

## Question 8

---

**Question Type: MultipleChoice**

---

A client needs to track their website activity and send data for real time processing in another analytics system. Which IBM Cloud service should be recommended for sending data for real time processing?

### Options:

---

- A- App Connect
- B- MQ
- C- API Gateway
- D- Event Streams

### Answer:

---

C

### Explanation:
