## Question 1

Question Type: MultipleChoice

LUNs belonging to an ESXi cluster were encapsulated behind VPLEX. What information must be shared with the ESXi administrator so that they can re-discover the datastore and the RDM LUNs?

Options:

- A- Virtual volume VPD
- B- UUID of back-end LUN
- C- VML ID
- D- WWN: WWPN

P2P  
exams

Answer:

D

## Question 2

Question Type: MultipleChoice

What is a VPLEX RAID-0 device?

Options:

- A- Device that stripes data beneath a top-level device
- B- Device that concatenates data on a top-level device
- C- Extent that concatenates data on a top-level device
- D- Extent that stripes data beneath a top-level device

P2P  
exams

Answer:

A

## Question 3

Question Type: MultipleChoice

In a VPLEX Metro, what factor has a direct impact on VPLEX performance with respect to WAN

bandwidth?

Options:

- A- Thin pool rebalances
- B- Read rate on distributed volumes
- C- Raid rebuild on array
- D- Write rate on distributed volumes

Answer:

D

P2P  
exams

## Question 4

Question Type: MultipleChoice

A new VPLEX system has been installed that uses ESRS. The firewall administrator has opened ports 25, 9010, and 5901 between VPLEX and ESRS. A support ticket is logged. While trying to troubleshoot, the technical support engineer cannot access the GUI of VPLEX.

Which port needs to be opened on the firewall?

Options:

- A- 21
- B- 443
- C- 3268
- D- 8080

P2P  
exams

Answer:

B

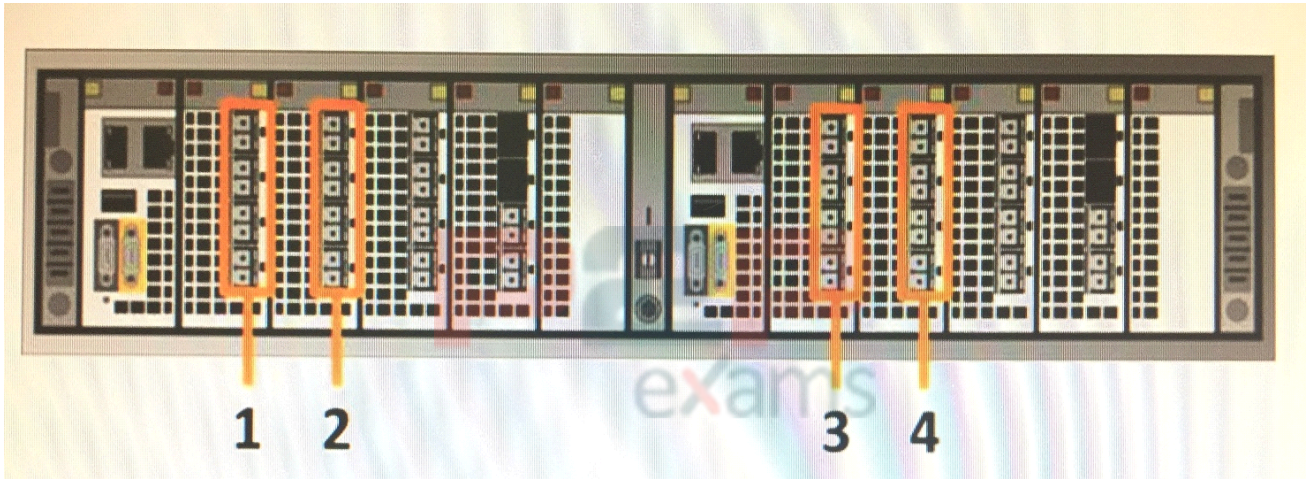

Explanation:

The VPLEX Management Console's graphical user interface (GUI) is accessible as a web service on the management server's public Ethernet port and the service port, using the HTTPS protocol. It is available on the standard port 443.

## Question 5

Question Type: MultipleChoice

Refer to the Exhibit:

Which number in the exhibit highlights the Director-A back-end ports?

Options:

- A- 1
- B- 2
- C- 3
- D- 4

Answer:

D

## Question 6

Question Type: MultipleChoice

A company has deployed a VPLEX Metro protecting two applications without Cluster Witness:

-App1 distributed virtual volumes are added to CG1, which has detach-rule set cluster-1 as winner

-App2 distributed virtual volumes are added to CG2, which has detach-rule set cluster-2 as winner

What should be the consequence if there is a WAN COM failure for an extended period?

Options:

- A- I/O for CG1 is suspended at cluster -1; I/O is serviced at cluster-2 I/O for CG2 is serviced at cluster -1; I/O is suspended at cluster-2
- B- I/O for CG1 is suspended at cluster -1; I/O is serviced at cluster-2 I/O for CG2 is serviced at cluster -2; I/O is suspended at cluster-1
- C- I/O for CG1 is detached at cluster -1; I/O is serviced at cluster-2 I/O for CG2 is detached at cluster -2; I/O is serviced at cluster-1
- D- I/O for CG1 is serviced at cluster -1; I/O is suspended at cluster-2 I/O is serviced for CG2 at cluster -2; I/O is suspended at cluster-1

Answer:

C

## Question 7

Question Type: MultipleChoice

How can a VPLEX storage administrator manage array-based attributes?

Options:

- A- Device tiers
- B- Storage tiers
- C- Volume tiers
- D- Extent tiers

Answer:

B

## Question 8

Question Type: MultipleChoice

LUNs are being provisioned from an ALUA-capable back-end array to VPLEX. What is the path requirement for each VPLEX director when connecting to this type of array?

Options:

- A- At least two paths to every back-end array and storage volume
- B- At least two paths to both the active and passive array controllers
- C- A least two paths to both the active and non-preferred array controllers
- D- At least two paths to the active array controller only

Answer:

B

## Question 9

Question Type: MultipleChoice

In addition to Active Directory, which other directory service can VPLEX integrate with for user authentication?

Options:

- A- LDAP
- B- NIS
- C- NDS
- D- PAM

Answer:

A

## Question 10

Question Type: MultipleChoice

Which VPLEX component can determine the difference between a partition and a site failure of a VPLEX Metro configuration?

Options:

- A- VPLEX Witness
- B- Management Server
- C- Distributed device

D- Consistency group

Answer:

---

A
