**Answer:**

---

A, B, C

## Question 3

---

**Question Type:** MultipleChoice

---

The maximum number of layers supported by the location topology in Huawei eSight is layer.

**Options:**

---

- A- 7

**B-** 8

**C-** 9

**D-** 10

**Answer:**

---

D

## Question 4

---

**Question Type:** MultipleChoice

---

The following is not the AP binding template .

**Options:**

---

**A-** Radio frequency template

**B-** AP template

**C-** ESS template

**D-** Planning table template

**Answer:**

---

D

## Question 5

---

**Question Type:** MultipleChoice

---

The number of APs supported by the AC6605 by default is.

**Options:**

---

A- 4

B- 0

C- 8

D- 10

**Answer:**

---

A

## Question 6

---

**Question Type:** MultipleChoice

---

Which of the following commands can be used to view the AC current configuration?

**Options:**

---

- A- display interface
- B- display current-configuration
- C- display ap all
- D- display version

**Answer:**

---

B

## Question 7

---

**Question Type:** MultipleChoice

---

The current version information can be viewed in the following commands.

**Options:**

---

- A- display interface
- B- display current-configuration
