**Answer:**

---

C

## Question 6

---

**Question Type: MultipleChoice**

---

As the HIM Director at the Pediatric Clinic, you have just contracted with a firm that will scan your retired paper records to disk. You tell the administrator you would like to have retired records currently on microfilm scanned to disk, too. The administrator would like to keep those records on roll film to save the cost of the extra scanning. You tell the administrator you don't recommend this because

**Options:**

---

- A) roll microfilm is an outdated medium that is no longer accepted in most courts.
- B) agencies with more than four rolls of microfilm must store them in fire-safe cabinets.
- C) keeping the old film will require maintaining an old reader-printer for access.
- D) roll microfilm is such an old technology that the clinic should be ashamed to use it.

**Answer:**

---

C

## Question 7

---

**Question Type: MultipleChoice**

---

Which would be the better 'best practice' for handling fax transmission of a physician's orders?

**Options:**

---

- A)** Treat faxed orders like verbal orders and require authentication of the orders by appropriate medical staff within the required time period.
- B)** Faxed orders should be placed on the patient's chart immediately upon receipt after the head' nurse signs the orders.
- C)** Wait 24 hours before placing faxed orders on the patient's chart to ensure that the orders are legitimate.
- D)** Faxed orders should never be accepted.

**Answer:**

---

A

## Question 8

---

**Question Type:** MultipleChoice

---

You are starting your new job as the sole HIM professional at a small psychiatric practice. The practice uses DSM for billing purposes. You find this 'theoretically' reasonable because DSM
