Question 1

Question Type: MultipleChoice

The Family Educational Rights and Privacy Act (FERPA) requires schools to do all of the following EXCEPT?

Options:

- A- Verify the identity of students who make requests for access to their records.
- B- Provide students with access to their records within a specified amount of time.
- C- Respond to all reasonable student requests regarding explanation of their records.
- D- Obtain student authorization before releasing directory information in their records.

Answer:

B

Question 2

Question Type: MultipleChoice

When developing a company privacy program, which of the following relationships will most help a privacy professional develop useful guidance for the organization?

Options:

- A-** Relationships with individuals within the privacy professional community who are able to share expertise and leading practices for different industries.
- B-** Relationships with clients, vendors, and customers whose data will be primarily collected and used throughout the organizational program.
- C-** Relationships with company leaders responsible for approving, implementing, and periodically reviewing the corporate privacy program.
- D-** Relationships with individuals across company departments and at different levels in the organization's hierarchy.

Answer:

C

Question 3

Question Type: MultipleChoice

The FTC often negotiates consent decrees with companies found to be in violation of privacy principles. How does this benefit both parties involved?

Options:

- A- It standardizes the amount of fines.
- B- It simplifies the audit requirements.
- C- It avoids potentially harmful publicity.
- D- It spares the expense of going to trial.

Answer:

C

Question 4

Question Type: MultipleChoice

A company's employee wellness portal offers an app to track exercise activity via users' mobile devices. Which of the following design techniques would most effectively inform users of their data privacy rights and privileges when using the app?

Options:

- A- Offer information about data collection and uses at key data entry points.
- B- Publish a privacy policy written in clear, concise, and understandable language.
- C- Present a privacy policy to users during the wellness program registration process.
- D- Provide a link to the wellness program privacy policy at the bottom of each screen.

Answer:

C

Question 5

Question Type: MultipleChoice

What privacy concept grants a consumer the right to view and correct errors on his or her credit report?

Options:

- A- Access.

B- Notice.

C- Action.

D- Choice.

Answer:

B

Question 6

Question Type: MultipleChoice

SCENARIO

Please use the following to answer the next QUESTION

Felicia has spent much of her adult life overseas, and has just recently returned to the U.S. to help her friend Celeste open a jewelry store in Californi

a. Felicia, despite being excited at the prospect, has a number of security concerns, and has only grudgingly accepted the need to hire other employees. In order to guard against the loss of valuable merchandise, Felicia wants to carefully screen applicants. With their permission, Felicia would like to run credit checks, administer polygraph tests, and scrutinize videos of interviews. She intends to read applicants' postings on social media, ask Question:s about drug addiction, and solicit character references. Felicia believes that if potential employees are serious about becoming part of a dynamic new business, they will readily agree to these requirements.

Felicia is also in favor of strict employee oversight. In addition to protecting the inventory, she wants to prevent mistakes during transactions, which will require video monitoring. She also wants to regularly check the company vehicle's GPS for locations visited by employees. She also believes that employees who use their own devices for work-related purposes should agree to a certain amount of supervision.

Given her high standards, Felicia is skeptical about the proposed location of the store. She has been told that many types of background checks are not allowed under California law. Her friend Celeste thinks these worries are unfounded, as long as applicants verbally agree to the checks and are offered access to the results. Nor does Celeste share Felicia's concern about state breach notification laws, which, she claims, would be costly to implement even on a minor scale. Celeste believes that

even if the business grows a customer database of a few thousand, it's unlikely that a state agency would hassle an honest business if an accidental security incident were to occur.

In any case, Celeste feels that all they need is common sense -- like remembering to tear up sensitive documents before throwing them in the recycling bin. Felicia hopes that she's right, and that all of her concerns will be put to rest next month when their new business consultant (who is also a privacy professional) arrives from North Carolina.

Based on Felicia's Bring Your Own Device (BYOD) plan, the business consultant will most likely advise Felicia and Celeste to do what?

Options:

- A-** Reconsider the plan in favor of a policy of dedicated work devices.
- B-** Adopt the same kind of monitoring policies used for work-issued devices.
- C-** Weigh any productivity benefits of the plan against the risk of privacy issues.

D- Make employment decisions based on those willing to consent to the plan in writing.

Answer:

D

Question 7

Question Type: MultipleChoice
