## Question 1

---

**Question Type:** MultipleChoice

---

Which two statements are true regardless of initial Logs sync and Log Data Sync for HA on FortiAnalyzer?

### Options:

---

- A- By default, Log Data Sync is disabled on all backup devices.
- B- Log Data Sync provides real-time log synchronization to all backup devices.
- C- With initial Logs Sync, when you add a unit to an HA cluster, the primary device synchronizes its logs with the backup device.
- D- When Log Data Sync is turned on, the backup device will reboot and then rebuild the log database with the synchronized logs.

### Answer:

---

C, D

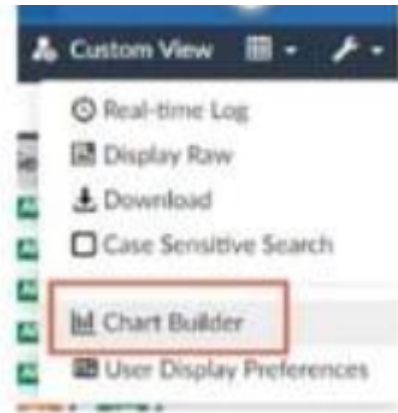

## Question 2

---

**Question Type:** MultipleChoice

---

Refer to the exhibit.

What is the purpose of using the Chart Builder feature on FortiAnalyzer?

**Options:**

---

- A-** In Log View, this feature allows you to build a dataset and chart automatically, based on the filtered search results.
- B-** In Log View, this feature allows you to build a chart and chart automatically, on the top 100 log entries.
- C-** This feature allows you to build a chart under FortiView.
- D-** You can add charts to generated reports using this feature.

**Answer:**

---

A

## Question 3

---

**Question Type:** MultipleChoice

---

What is Log Insert Lag Time on FortiAnalyzer?

**Options:**

---

- A- The number of times in the logs where end users experienced slowness while accessing resources.
- B- The amount of lag time that occurs when the administrator is rebuilding the ADOM database.
- C- The amount of time that passes between the time a log was received and when it was indexed on FortiAnalyzer.
- D- The amount of time FortiAnalyzer takes to receive logs from a registered device

**Answer:**

---

C

## Question 4

---

**Question Type: MultipleChoice**

---

What are analytics logs on FortiAnalyzer?

**Options:**

---

- A-** Log type Traffic logs.
- B-** Logs that roll over when the log file reaches a specific size.
- C-** Logs that are indexed and stored in the SQL.
- D-** Raw logs that are compressed and saved to a log file.

**Answer:**

---

C

## Question 5

---

**Question Type: MultipleChoice**

---

Which two statements express the advantages of grouping similar reports? (Choose two.)

**Options:**

---

- A- Improve report completion time.
- B- Conserve disk space on FortiAnalyzer by grouping multiple similar reports.
- C- Reduce the number of hcache tables and improve auto-hcache completion time.
- D- Provides a better summary of reports.

**Answer:**

---

A, C

## Question 6

---

**Question Type: MultipleChoice**

---

An administrator fortinet, is able to view logs and perform device management tasks, such as adding and removing registered devices. However, administrator fortinet is not able to create a mail server that can be used to send email.

What could be the problem?

**Options:**

---

- A- Fortinet is assigned the Standard\_ User administrator profile.
- B- A trusted host is configured.
- C- ADOM mode is configured with Advanced mode.
- D- Fortinet is assigned the Restricted\_ User administrator profile.

### Answer:

---

A

### Explanation:

---

- \* Super\_User, which, like in FortiGate, provides access to all device and system privileges.
- \* Standard\_User, which provides read and write access to device privileges, but not system privileges.
- \* Restricted\_User, which provides read access only to device privileges, but not system privileges. Access to the Management extensions is also removed.
- \* No\_Permissions\_User, which provides no system or device privileges. Can be used, for example, to temporarily remove access granted to existing admins.

## Question 7

---

**Question Type:** MultipleChoice

---

What can you do on FortiAnalyzer to restrict administrative access from specific locations?

### Options:

---

- A- Configure trusted hosts for that administrator.
- B- Enable geo-location services on accessible interface.
- C- Configure two-factor authentication with a remote RADIUS server.
- D- Configure an ADOM for respective location.

### Answer:

---

A

## Question 8

---

**Question Type:** MultipleChoice

---

In Log View, you can use the Chart Builder feature to build a dataset and chart based on the filtered search results.

Similarly, which feature you can use for FortiView?

**Options:**

---

**A-** Export to Report Chart

**B-** Export to PDF

**C-** Export to Chart Builder

**D-** Export to Custom Chart

**Answer:**

---

A

**Explanation:**

---

Similar to the Chart Builder feature in Log View, you can export a chart from a FortiView. The chart export includes any filters you set on the FortiView. FortiAnalyzer\_7.0\_Study\_Guide-Online pag. 292.
