Question 1

Question Type: MultipleChoice

What are the manageability and safety features of Taishan200 series products?

Options:

- A-** Support the server chassis security panel with lock to protect the security of the server's local data
- B-** Integrated on the serverThe iBMC management module can be used to monitor the running status of the system and provide remote management functions
- C-** Single server supports slave processor, the largest128 cores, which can maximize the concurrent execution of multi-threaded applications Ability
- D-** Integrated industry standard unified and scalable firmware interface(UEFI), so it can improve the efficiency of setup, configuration and update, and simplify the error handling process

Answer:

A, B, C, D

Question 2

Question Type: MultipleChoice

How many CPU cores can Taishan200 2280 support?

Options:

A- 128

B- 64

C- 256

D- 32

Answer:

A

Question 3

Question Type: MultipleChoice

Which of the following types of network cards are supported by Taishan200 series servers?

Options:

- A- Onboard network card
- B- PCIe expansion network card
- C- USB network card

Answer:

A, B

Question 4

Question Type: MultipleChoice

TaiShan server has the same hardware (memory, hard disk) compatibility as x86 server.

Options:

- A- True
- B- False

Answer:

A

Question 5

Question Type: MultipleChoice

Which of the following methods can be used for TaiShan200 2280 Increase the number of hard drives?

Options:

- A- System serial port
- B- Rear hard drive module
- C- Increase the number of memory
- D- Flexible I/O

Answer:

B

Question 6

Question Type: MultipleChoice

iBMC intelligent management system, which of the following statements is correct?

Options:

- A-** Supports visual image interface, you can quickly complete settings and query tasks through simple interface clicks
- B-** Provides a wealth of fault detection functions to accurately locate hardware faults, which can be accurate to
- C-** The iBMC intelligent management system is a remote server management system independently developed by Huawei with completely independent intellectual property rights
- D-** Compatible with the server industry management standard IPM20 specifications, and has highly reliable hardware monitoring and management functions

Answer:

A, B, C, D

Question 7

Question Type: MultipleChoice

What are the main features of Taishan iBMC intelligent management system?

Options:

- A- Support through Web browser login
- B- Support simple network management protocol (SNMP)
- C- Support Intelligent Platform Management Interface (IPMI)
- D- Support redirection of keyboard, mouse, video and text console
- E- Support remote virtual media

Answer:

A, B, C, D, E

Question 8

Question Type: MultipleChoice

Which of the following server models only support 12 bays?

Options:

A- TaiShan 100 2280

B- TaiShan 200 2180.

C- TaiShan 200 2280

D- TaiShan 200 2480

Answer:

B

Question 9

Question Type: MultipleChoice

TaiShan5280 server is a 4U2-channel storage server.

Options:

A- True

B- False

Answer:

A

Question 10

Question Type: MultipleChoice

The TaiShan2280 server is a 2U2-channel balanced server.

Options:

A- True

B- False

Answer:

A

Question 11

Question Type: MultipleChoice

TaiShan server includes a variety of specifications to meet various application scenarios such as balance, storage, and high-density.

Options:

A- True

B- False

Answer:

A

Question 12

Question Type: MultipleChoice

Taishan200 2280 can be plugged into 300 accelerator card through Atlas interface.

Options:

A- Flexible I/O

B- PCIe

C- High-speed optical port

D- USB

Answer:

B
