Question 1

Question Type: MultipleChoice

A banking company wants their customers Date of Birth Field searchable by Banking Reps, but only editable by Customer Support Reps.

Which approach is recommended to meet this requirement?

Options:

- A-** Create a Validation rule in the Date of Birth field so the rule returns true only when user.profilename matches Customer Support Rep.
- B-** Set the Field Level Security for the Date of Birth field to be Visible to Customer Support Rep Profile, and set the Date of Birth Field Visible and Read-only to Banking Rep profile.
- C-** Add Date of Birth field to the Search layout of the Contact Object. Modify the Page layout assigned to Customer Support Rep and add Date of Birth field as Required.

Answer:

B

Question 2

Question Type: MultipleChoice

Sales operations at Universal Containers (UC) has created Public Reports and Dashboards folders for sales managers. Sales operations and sales managers report to the VP of Sales. Sales operations currently spends a few hours each month updating users that should have access to edit reports and dashboards in these folders.

How should UC grant access to sales managers to automate access to these Public Reports and Dashboard folder?

Options:

- A-** Share the folders with the Sales Managers profile.
- B-** Share the folders with a 'Sales Managers' Public Group.
- C-** Share the folders with the lowest roles in the Role Hierarchy; superiors will get access automatically.

Answer:

A
