## Question 1

---

**Question Type:** MultipleChoice

---

What are the steps to engage customers to develop IoT opportunities?

### Options:

---

- A- design in with OT vendors build full-stack solutions, extend the enterprise
- B- standardize industrial and enterprise networks simplify sales plays, accelerate integrations
- C- create a foundation with IBN extend relevance with cybersecurity, engage with edge data
- D- leverage CVDs, connect all assets on the network, use data to drive business outcomes

### Answer:

---

B

## Question 2

---

**Question Type:** MultipleChoice

---

What is the benefit of deploying the Extended Enterprise CVD to provide scalable and repeatable operations across the entire enterprise with Cisco DNA Center?

**Options:**

---

- A- User Authentication
- B- Scalability
- C- Guided Remediation
- D- Security

**Answer:**

---

B

## Question 3

---

**Question Type:** MultipleChoice

---

Which program enables partners to embed Cisco boards, software or hardware products into purpose-built equipment and solutions?

**Options:**

---

A- IoT Ignite

B- Design-In

C- DevNet

D- Migration Incentive

**Answer:**

---

D

## Question 4

---

**Question Type: MultipleChoice**

---

Which products should an engineer leverage to implement a complete cybersecurity solution in secondary substations'?

**Options:**

---

A- hardware (IR1101) and software (Cyber Vision)

**B-** hardware (ISA3000) and software (FND)

**C-** hardware (IW6300) and software (IND)

**D-** hardware (ISA3000) and software (Cyber Vision)

**Answer:**

---

D

## Question 5

---

**Question Type:** MultipleChoice

---

What does Volt/Var Control and Optimization manage?

**Options:**

---

**A-** Fault Location Isolation

**B-** voltage levels and power quality

**C-** compliance regulatory

**D-** service restoration

**Answer:**

---

B

## Question 6

---

**Question Type: MultipleChoice**

---

Which technologies are enabled by a wireless Industry 4.0 network1?

**Options:**

---

- A- cybersecurity and distributed I/O
- B- wireless tooling and IP67 protection grade
- C- remote expert and AGV
- D- CVD and Devnet

**Answer:**

---

A

## Question 7

---

**Question Type:** MultipleChoice

---

Which two displays are included in the IoT Operations Dashboard? (Choose two )

### Options:

---

- A- destination mapping
- B- asset connectivity
- C- agent mapping
- D- data policy deployment status
- E- transformation parameters

### Answer:

---

B, D

## Question 8

---

**Question Type:** MultipleChoice

---

How can threats in surface areas be reduced?

**Options:**

---

**A-** effective network segmentation

**B-** flat networks

**C-** devise visibility

**D-** scalability

**Answer:**

---

B

## Question 9

---

**Question Type: MultipleChoice**

---

What are two functions of the Cisco vManage Control Center? (Choose two.)

**Options:**

---

- A- Secure Remote Access
- B- Analytics and Assurance
- C- Active/Active WAN
- D- OT centric workflow for mass deployment
- E- Simple Scalable Policy Distribution

**Answer:**

---

A, D

## Question 10

---

**Question Type: MultipleChoice**

---

What are primary customer concerns in Oil and Gas?

**Options:**

---

- A- having all the automation gear compatible with automation protocols and maintaining OEE
- B- wasting time in manual diagnostics and providing cybersecurity
- C- implementing field protocols and providing Profinet compatibility
- D- saving money on automation devices and installing protection grade cabinets

**Answer:**

---

A

## Question 11

---

**Question Type:** MultipleChoice

---

Which Cisco full-stack solution is used for asset visibility within mining operations?

**Options:**

---

- A- GMM
- B- Kinetic
- C- Industrial Asset Vision

D- IND

**Answer:**

---

C
