# Question 1

**Question Type:** MultipleChoice

What are critical problems in utility operations'?

## Options:

**A-** integration of renewable energy in the grid

**B-** IT-OT convergence and automation

**C-** workforce cost

**D-** FLISRand VVO

## Answer:

A

# Question 2

**Question Type:** MultipleChoice

What are two ways CyberVision provides visibility and insights on industrial operations? (Choose two )

### Options:

**A-** provides management of conveyor operations

**B-** monitors Automation Control Systems

**C-** maps industrial zones and conduits

**D-** conducts motion analytics in robotics operations

**E-** detects changes in the control system

### Answer:

A, E

## Question 3

**Question Type:** **MultipleChoice**

Which Oil and Gas segment focuses on the improvement of the digital retail customer experience?

### Options:

**A-** Downstream

**B-** Substream

**C-** Subprime

**D-** Re-Stream

### Answer:

A

# Question 4

**Question Type:** **MultipleChoice**

Which sensor helps keep track of remote or mobile assets'?

### Options:

**A-** AV 206 - Light level sensor

**B-** AV 300 - Outdoor GPS sensor

**C-** AV 205 - Water leak sensors

**D-** AV 201 - Indoor Temp and humidity sensor

### Answer:

A

# Question 5

**Question Type:** MultipleChoice

Which two functions describe the role of the IE5000 in the network hierarchy? (Choose two )

### Options:

**A-** The IE5000 series are ruggedized, rack mount highly secure and scalable switches for access layer deployments

**B-** The IE5000 series are ruggedized. rack mount highly secure and scalable switches for aggregation layer deployments

**C-** The IE5000 series are ruggedized. rack mount highly secure and scalable routers for aggregation layer deployments 13

**D-** The IE5000 series are ruggedized. rack mount highly secure and scalable routers for distribution layer deployments

**E-** The IE5000 series are ruggedized. rack mount highly secure and scalable switches for distribution layer deployments

### Answer:

A, D

## Question 6

**Question Type:** MultipleChoice

In which two ways can roadway safety issues be addressed? (Choose two.)

### Options:

**A-** dynamic message sign automation

**B-** vehicle weight assessment

**C-** work zone protection

**D-** workflow automation and enforcement

**E-** vehicle counting and classification

## Answer:

C, E

# Question 7

**Question Type:** MultipleChoice

Which technology is specifically recommended for ports?

## Options:

**A-** Embedded Service Switch

**B-** Cisco Ultra-Reliable Wireless Backhaul

**C-** LoRaWan

**D-** CyberVision

## Answer:

B

# Question 8

**Question Type:** MultipleChoice

How can issues with traffic safety and new connected vehicles be addressed?

## Options:

**A-** provide insight into the data generated from roadway sensors and devices

**B-** converge multi-services network designed for resiliency and deployment and management at scale

**C-** Cisco Validated Designs provide peace of mind and clear compliances

**D-** zero trust model, increase visibility, segmenting traffic mitigate and threat protection end-to-end

## Answer:

D

# Question 9

**Question Type:** MultipleChoice

What are the main features required of an Industry 4.0 network-?

## Options:

**A-** Safety and Profibus compatibility

**B-** low latency cybersecurity. convergence

**C-** standardization safety PLC compatibility

**D-** safety IEC 61850 compatibility

## Answer:

D
