Answer:

A

Question 5

Question Type: **MultipleChoice**

Emelia and Lola have created a new software application that allows messaging site subscribers to analyze the message statistics in order to more easily asses and interact with followers. They have decided to license this software according to the GNU GPL Version 3. What does this license allow them to do with their software?

Options:

A) They can only sell this software through a not-for-profit company.

B) They can sell this software, but only if they make the software code available on a public server.

C) The software enters the public domain for free use and can be altered by other programmers, who must then make their changes

freely available as well.

D) The software enters the public domain for free use, but any changes made in the future can be kept secret, allowing them to profitably sell the modified software.

Answer:

C

Question 6

Question Type: **MultipleChoice**

Marcella is looking for a very unique product online. She has found one on the XYZ Company's Web site, which is designed well and appears to be legitimate. As she navigates through the checkout process, she reaches the checkout page with this URL, which asks her to enter her credit card information:

http://XYZ.com/gp/checkout.html/ref=chk_out_TLS12B_lb?ie=UTF8&docId=10007931

Why should Marcella cancel her online transaction instead of proceeding?

Options:

A) Because the site uses 128-bit encryption, which is illegal for companies that are located overseas

B) Because the link contains abbreviations and is not completely readable, so Marcella is unsure of the server name

C) Because the link does not use SSL/TLS encryption and therefore the information Marcella enters would not be secure

D) Because the link uses SSL/TLS encryption, which Marcella knows is not compatible with the browser she is using

Answer:

C
