B- W3C
C- IEFT
D- RFC

P2P exams

### Answer:

A

## Question 2

Question Type: MultipleChoice

You are leading a team of new hires and need to train them on innovative strategies and technologies that will be used to develop an upcoming project. You send several e-mail messages with links to helpful resources. But you soon realize this is an inefficient way to organize and share this information. Which solution would provide a more efficient way to categorize and share this information?

P2P exams

### Options:

A- Social tagging
B- Grid computing
C- Ajax programming
D- Collective intelligence

### Answer:

A

## Question 3

Question Type: MultipleChoice

Aisha is preparing to give a presentation to management about the development of cloud computing services that her company is planning to implement. Which of the following might her managers mention as a possible objection or drawback to using cloud services for the company?

### Options:

A- Speed
B- Cost
C- Flexibility
D- Scalability

### Answer:

A

## Question 4

Question Type: MultipleChoice

You have just finished designing a Web site to support a charity organization's fund-raising efforts. You need to meet with the board members to get their feedback and address some questions before you implement the final design. The board members are dispersed throughout the country and want to avoid spending charity funds on traveling to this meeting. Which option best solutions would best support the charity and provide you with an opportunity to discuss the design as a group?

### Options:

A- Plan a Web conference using a service such as WebEx or GoToMeeting that supports screen sharing and phone conferencing.
B- Plan a Webinar that reviews the layout of the site and request that board members submit their feedback by e-mail after the Webinar.
C- Create a PowerPoint slideshow that contains pictures of your Web site design and create a survey to gather the board members' feedback.
D- Create an audio Webcast and distribute it to the board members over the Internet.

### Answer:

A

## Question 5

Question Type: MultipleChoice

You are configuring an e-mail client to connect to your e-mail account. Which of following is required to set up the e-mail account?

### Options:

A- An HTTP address
B- An FTP address
C- A DNS server address
D- A POP3 address

### Answer:

D

## Question 6

Question Type: MultipleChoice

You are expecting a very important file from a co-worker in a remote office to be sent to you through e-mail. You finally call the co-worker and tell him that you have not received the file. He informs you that he sent the file yesterday, but will send it again immediately. After some time, you still have not received his e-mail message. You contact the Technical Support department and ask them for help. After some investigation, Technical Support finds the e-mail from your coworker with an attachment named salesnumbers.exe in the spam folder of your e-mail client. What is the most likely reason that the e-mail message was filtered out?

### Options:

A- Messages from remote offices are blocked on internal e-mail.
B- The attachment's file size exceeds the size limits of the e-mail filter policy.
C- File attachments with an .exe extension may contain malicious code.
D- The file name of the attached file exceeds the file name length of the filter policy.

## Answer:

C

## Question 7

Question Type: MultipleChoice

Irena is reviewing several promotional product videos from her company's marketing department before they are published on the company's Web site. The videos are in RealMedia format, but they do not open in Irena's Windows Media Player. What should Irena do in order to view the videos?

## Options:

A- Contact her company's Technical Support department and schedule service for her computer.
B- Convert the video files to the WMV format, because RealMedia files will not play in Windows Media Player.
C- Upload the videos to the Web server to be viewed through Windows Media Player because they will not play from a local computer.
D- Decompress the files before attempting to play them in Windows Media Player, because RealMedia files are compressed for uploading/downloading.

## Answer:

B

## Question 8

Question Type: MultipleChoice

Emelia and Lola have created a new software application that allows messaging site subscribers to analyze the message statistics in order to more easily assess and interact with followers. They have decided to license this software Based on the GNU GPL Version 3. What does this license allow them to do with their software?

## Options:

A- They can only sell this software through a not-for-profit company.
B- They can sell this software, but only if they make the software code available on a public server.

C- The software enters the public domain for free use and can be altered by other programmers, who must then make their changes freely available as well.
D- The software enters the public domain for free use, but any changes made in the future can be kept secret, allowing them to profitably sell the modified software.

### Answer:

C

## Question 9

Question Type: MultipleChoice

Proprietary information for your company's online business was released to a competitor. Which of the following preventative measures should your company take to ensure that its proprietary information is protected in the future?

### Options:
