Question 1

Question Type: MultipleChoice

Karen is the Webmaster for her company. Management would like to make the company's intra net site more effective by providing links to internal HR forms for all employees to access. These forms are currently stored on the company s file server and are updated quarterly. For security reasons, the Web server does not allow linking to the company s file server. How should Karen create these links?

Options:

A- Upload the forms to the Web server and create local relative links to the files.
B- Upload the forms to the Web server and create local absolute links to the files.
C- Upload the forms to the Web server and create external relative links to the files.
D- Upload the forms to the Web server and create external absolute links to the files.

Answer:

A

Question 2

Question Type: MultipleChoice

Skylar has been asked by the HR Department to create a Web page for the company's intra net site that compares the company's four different medical insurance plans. To accomplish this effectively in HTML5, Skylar should:

Options:

A- Use document structure tags to lay out the page and use a table to organize the medical insurance plan information.
B- use JavaScript to lay out the page and use a table within the page to organize the medical insurance plan information.
C- use tables to lay out the page and use the

```
tag inside the table to organize the medical insurance plan information.
```

D- use CSS to lay out the page and use the

```
element to organize the medical insurance plan information.
```

Answer:

A

Question 3

Question Type: MultipleChoice

Marion has been hired by a popular national salon business to refresh its existing Web site and update it to valid HTML5 code. Money is not an issue, but time is. Marion is asked to complete the project within eight weeks. The site currently includes 10 pages and connects to a back-end database so that customers can sign in for a personalized experience. Marion suspects that most of the existing code will need to be replaced. Marion must ensure that she has plenty of time for the testing phase, so she needs to complete the planning phase, in which she selects the multimedia for the site, within the next couple days. Which strategy should Marion use in the planning phase?

Options:

A- Take pictures of the salons herself.
B- Purchase stock photos from online resources.
C- Hire a photographer to take pictures of the salons.
D- Edit existing images of the salons to update them.

Answer:

B

Question 4

Question Type: MultipleChoice

When the user clicks the Submit Query button on a form, the browser sends the information entered in the form to the Web server as a raw text string. The basic element of a raw text string is a name = value pair. A CGI script parses and formats the raw text string into a human-readable format. Which attribute of the form field elements organizes information input by the user into name = value pairs?

Options:

A- Type
B- Name
C- Value
D- Input

Answer:

B

Question 5

Question Type: MultipleChoice

You are creating a style sheet to format the pages on your company's Web site. One section will have a black background with white text. What is the hexadecimal reference you would use to specify the text color for this portion of the Web page?

Options:

A- ''white''
B- #000000
C- #FFFFFF
D- ''255,255,255''

Answer:

C

Question 6

Question Type: MultipleChoice

When previewing a Web page using a GUI HTML editor, you will:

Options:

A- Be limited to the default browser on your computer or device.
B- Be limited to the browsers installed on your computer or device.

C- Receive an error because GUI editors cannot preview pages in a browser.
D- Be limited to two browser choices that are installed on your computer or device.

Answer:

B

Question 7

Question Type: MultipleChoice

You need to center and indent a quote on your Web page. Which is the best way to accomplish this using HTML5?

Options:

A- Use the

element.

B- Validate the code using the GUI validator.
C- Use the style attribute with the

tag.

D- Use the text-align attribute with the

tag.

Answer:

B

Question 8

Question Type: MultipleChoice

Clyde is working on a Web page for his company's intranet. He wants to insert an HTML comment within the page to let other developers know that the page validates as HTML5 and that he is the page author. Which line of code will insert the comment that

Clyde requires?

Options:

A- // Clyde Davis, 9/17/2012. This code validates to HTML5
B- /*Clyde Davis, 9/17/2012. This code validates to HTML5 */
C- The Web site will rank higher in many search engines results, as long as the search engine bot recognizes the code.
D- Edit the code so that it conforms to a single W3C HTML standard.

Answer:

D

Question 9

Question Type: MultipleChoice

Consider the following HTML5 code:

```
<!DOCTYPE html>
<html lang="en">
<head>
    <title>My Favorite Movie Quotes</title>
    <link rel="stylesheet" href="css/styles.css"/>
</head>
<body>
<p> This Web site is devoted to my favorite movie quotes. These iconic movie quotes have
been used time and again but will never lose their appeal. </p>
<p> CAPTAIN (Strother Martin) in Cool Hand Luke (1967)
<blockquote> "What we've got here...is a failure to communicate." </blockquote>
</p>
</body>
</html>
```

The code does not validate as HTML5. Why?

Options:

A- The
 tag is missing.
B- The <meta> tag and its attributes are missing.
C- The <blockquote> tag should be used outside the

 tags.

D- The !DOCTYPEdeclaration is missing a reference to the Document Type Definition (DTD).

Answer:

C
