Question 1

Question Type: MultipleChoice

You were down in the data center working on something else and received a phone call to make a change on the Jenkins server. As the rack does not have sufficient power or internet for you to plug in your laptop, you decide to just use the console on the server itself. How would you access the CLI?

Options:

A- All of these
B- java -jar /var/lib/jenkins/jenkins-cli.jar -s http://localhost:8080/
C- jenkins
D- jcli

Answer:

B

Explanation:

You can utilize the Jenkins CLI for system administration with this command.

Question 2

Question Type: MultipleChoice

Which is not a common stage of CI/CD?

Options:

A- Deploy
B- Test
C- Build
D- Kill

Answer:

D

Explanation:

Build, deploy, and test are all common stages of a CI/CD process.

Question 3

Question Type: MultipleChoice

Which practices optimize performance on large systems? Select 2 answers

Options:

A- Run all builds on agents and never on the master itself.
B- Use the maximum number of executors at all times and avoid using labels.
C- Avoid modifying Java parameters that control heap size and garbage collection.
D- Use plugins as much as possible.
E- Allocate specific masters for different build types and teams.

Answer:

A, D

Question 4

Question Type: MultipleChoice

What's the commonly used Java code coverage plugin?

Options:

A- Maven
B- Cobertura
C- Ant
D- Gradle

Answer:

B

Question 5

Question Type: MultipleChoice

Which is NOT a continuous integration best practice?

Options:

A- Maintain a single source repository.
B- Do everything manually with great care.
C- Build every commit.
D- Make the build self-testing.

Answer:

A

Explanation:

Automation is a central tenant of continuous integration. Any manual process should be automated to the extent possible.

Question 6

Question Type: MultipleChoice

You are using GitHub repository scanning (in a project of type "GitHub Organization") with the Pipeline lenkinsfile Project Recognizer. In this case, which repositories under the organization will have Multibranch projects automatically created for them?

Options:

A- only repositories that contain a Jenkinsfile in all their branches
B- only repositories that contain a Jenkinsfile in at least one branch

C- all repositories that contain a Jenkinsfile in at least one branch or pull request
D- all repositories

Answer:

A

Question 7

Question Type: MultipleChoice
