Question 1

Question Type: MultipleChoice

Scenario: Your company is using cloud deployment templates to automate the provisioning of application services. What best practices should be followed to ensure these templates remain effective and secure?

Select one:

Options:

- A- Limit the scope of templates to only a few services.
- B- Avoid updating templates to maintain consistency.
- C- Use templates exclusively without any manual intervention.
- D- Regularly update templates to incorporate new security features.

Answer:

D

Question 2

Question Type: MultipleChoice

Which of the following is a primary advantage of using an orchestration model like N/E/S/W-bound APIs?

Choose one:

Options:

- A- It makes coffee for the IT team
- B- It increases the number of office plants
- C- It simplifies and automates the creation and management of services
- D- It predicts the weather accurately

Answer:

C

Question 3

Question Type: MultipleChoice

Scenario: Your company is using BIG-IQ Centralized Management to deploy F5 instances in a cloud environment. What benefits should you expect from using this tool during deployment?

Choose one:

Options:

- A- Streamlined deployment processes with automated provisioning
- B- Limited control over instance configuration
- C- Higher costs due to automation overhead
- D- Increased manual intervention to ensure precision

Answer:

A

Question 4

Question Type: MultipleChoice

What is the primary benefit of using cloud computing?

Choose one:

Options:

- A- Reduced IT infrastructure costs
- B- Improved physical security
- C- Faster internet speed
- D- Lower electricity bills

Answer:

A

Question 5

Question Type: MultipleChoice

Which of the following is NOT a typical component of cloud IAM?

Choose one:

Options:

- A- Role-based access control
- B- Multi-factor authentication
- C- Access policies
- D- User's physical location tracking

Answer:

D

Question 6

Question Type: MultipleChoice

Scenario: During a cloud deployment, you notice that application performance is not meeting expectations. What steps can you take to optimize instance sizing and location?

Choose one:

Options:

- A- Increase instance sizes indiscriminately to handle more traffic.
- B- Ignore performance issues and hope they resolve on their own.
- C- Analyze application traffic patterns and adjust instance sizes accordingly.
- D- Move all instances to a single region to simplify management.

Answer:

C

Question 7

Question Type: MultipleChoice

What is the primary role of Identity and Access Management (IAM) in a cloud environment?

Choose one:

Options:

- A- To control user access and permissions within cloud services
- B- To regulate access to network devices
- C- To monitor physical security of data centers
- D- To manage hardware resources

Answer:

A

Question 8

Question Type: MultipleChoice

Which of the following is NOT a common cloud service model?

Choose one:

Options:

- A- Platform as a Service (PaaS)
- B- Product as a Service (PaaS)
- C- Software as a Service (SaaS)
- D- Infrastructure as a Service (IaaS)

Answer:

B

Question 9

Question Type: MultipleChoice

In the N/E/S/W-bound API model, what does "N" typically represent?

Select one:

Options:

- A- Noodle
- B- Narrow
- C- Network
- D- North

Answer:

A, D

Question 10

Question Type: MultipleChoice

What is the primary purpose of a Virtual Private Cloud (VPC)?

Select one:

Options:

- A- To host a public website
- B- To create virtual machines
- C- To provide on-premises storage
- D- To isolate and segment network resources

Answer:

D

Question 11

Question Type: MultipleChoice

Which cloud technology provides on-demand access to computing resources over the internet?

Choose one:

Options:

- A- Blockchain
- B- Virtual reality
- C- Cloud computing
- D- Quantum computing

Answer:

C

Question 12

Question Type: MultipleChoice

When designing a cloud bursting solution, what variables should be evaluated?

(Select all that apply)

Choose:

Options:

- A- The CEO's favorite color
- B- Cloud provider capabilities
- C- Application scalability requirements
- D- The weather forecast

Answer:

B, C
