Question 1

Question Type: MultipleChoice

A customer has a SAN infrastructure with an HPE C-Class blade enclosure, and a mix of ProLiant G7, Gen8 and Gen9 servers. They require a new storage platform.

How can you confirm the new storage array will be supported in the existing environment?

Options:

- A- Design an array with an older version of the firmware to ensure compatibility.
- B- Document existing server and SAN information, and consult SPOCK to ensure firmware compatibility.
- C- Design an array with the latest firmware, and recommend that the customer engage HPE PointNext to upgrade the existing hardware.
- D- Check recommended firmware levels in the HP SAN Design Reference Guide to ensure firmware compatibility.

Answer:

B

Question 2

Question Type: MultipleChoice

A customer needs to upgrade their HPE storage environment, including driver and firmware levels and OS, to the latest version.

Where can you find the needed information about supported versions?

Options:

- A- HPE Storage Assessment Foundry
- B- HPE SAN Design Reference Guide
- C- HPE OneView
- D- HPE SPOCK

Answer:

D

Question 3

Question Type: MultipleChoice

Which value does an HPE Nimble solution provide in addition to other HPE storage solutions

Options:

- A- All inclusive software licensing over 5 years and additional capacity upgrades
- B- Upfront option for free controller upgrade after 3 years
- C- Flat support pricing for all hardware components
- D- Tier 1 and tier 2 phone support

Answer:

D

Question 4

Question Type: MultipleChoice

You are presenting the HPE StoreEver portfolio to a media agency.

What advantage is offered when using LTFS?

Options:

- A- file management capabilities will be provided with tape cartridges
- B- WORM functionality for file, block and object storage access on tape
- C- file encryption with public and private key management
- D- file and block data management within an HPE HSM solution

Answer:

A

Question 5

Question Type: MultipleChoice

A customer is interested in integrating their HPE 3PAR StoreServ arrays into their OneView environment to support automated volume provisioning.

What must you install to enable the integration?

Options:

- A- HPE SAN Network Advisor Enterprise
- B- HPE SAN Network Advisor Professional
- C- 3PAR Host Explorer
- D- OneView Global Dashboard

Answer:

A

Question 6

Question Type: MultipleChoice

What owns the physical drives in an HPE 3PAR StoreServ Express Layout?

Options:

- A- a logical disk
- B- a chunklet
- C- a single node

D- a node pair

Answer:

D

Question 7

Question Type: MultipleChoice

Which storage sizing tool, designed for HPE 3PAR StoreServ, can be used to determine whether customers qualify for the Get Thin Guarantee Program?

Options:

A- NinjaProtected

B- NinjaStars

C- NinjaCrawler

D- StoreVista

By performing a free NinjaProtected backup assessment, HPE and its partners can demonstrate how customers can reduce the amount of backup data they need to store by 95%---guaranteed (HPE StoreOnce Get Protected Guarantee Program)

Answer:

A

Question 8

Question Type: MultipleChoice

A customer needs to upgrade their HPE storage environment, including driver and firmware levels and OS, to the latest version.

Where can you find the needed information about supported versions?

Options:

- A- HPE Storage Assessment Foundry
- B- HPE SAN Design Reference Guide
- C- HPE OneView
- D- HPE SPOCK

Answer:

D

Question 9

Question Type: MultipleChoice

What are two advantages of HPE Recovery Manager Central? (Select two.)

Options:

- A- Enables automatic transparent failover
- B- Less expensive than traditional backup
- C- Includes Peer Copy asynchronous replication
- D- Manual data provisioning and policy-based copy protection
- E- Integration capabilities utilizing HTML

Answer:

B, C

Question 10

Question Type: MultipleChoice

A customer needs to add another HPE 3PAR StoreServ system and plans to use the federated storage approach.

Which advantages can the customer expect? (Choose two.)

Options:

- A- load balancing
- B- reduced power, cooling, and environmental impacts
- C- allows multiple management tools
- D- easier migration
- E- federated deduplication

Federated storage---Move data between storage systems in a peer-to-peer relationship simply, dynamically, and nondisruptively to improve storage utilization, balance workloads, and ease storage migration.

Answer:

A, D

Question 11

Question Type: MultipleChoice

What is used to migrate data between nodes in an HPE StoreVirtual VSA environment?

Options:

A- Network RAID

B- Peer Motion

C- SmartClone

D- Remote Copy

Integrated with HPE Recovery Manager Central for seamless data movement to StoreOnce Backup appliances and StoreOnce VSA, and bidirectional replication with 3PAR StoreServ arrays (Peer Copy).

Answer:

B

Question 12

Question Type: MultipleChoice

You are designing a solution that will have a new HPE Synergy frame and an HPE 3PAR StoreServ 8200 storage array with only the built-in ports. This new environment must keep the infrastructure within the data center to a minimum.

Which interconnect module will achieve this goal?

Options:

- A- Synergy 25-50Gb F8 Switch Module
- B- 6125G/XG Ethernet Blade Switch
- C- Synergy 20Gb Interconnect Link Module
- D- Virtual Connect SE 40Gb F8 Module

Answer:

D
