### **Options:**

- A- Transfer data based on TCP protocol
- B- Transfer data based on UDP protocol
- **C-** Linux platform file sharing protocol
- **D-** Windows platform file sharing protocol

#### **Answer:**

A, D

#### **Question Type:** MultipleChoice

The network connection is required before the big data system is initialized. The networking of the Huawei OceanStor 9000 does not include:

### **Options:**

- A- Front-end business network
- **B-** Backend storage network
- **C-** Management network
- D- Heartbeat network

#### **Answer:**

D

# **Question 7**

**Question Type:** MultipleChoice

A, B, C, D

**Question Type:** MultipleChoice

(Multiple choice) The network file sharing protocol supported by the NAS system mainly includes:

Multi-selection) Which node types does Huawei OceanStor 9000 support?

Question Type: MultipleChoice  (Optional) When the following occurs, the Huawei OceanStor 9000 system does not start load balancing?  Options:	Options:
C- NFS D- CIFS  Answer: C, D  Question 9  Question Type: MultipleChoice  (Optional) When the following occurs, the Huawei OceanStor 9000 system does not start load balancing?  Options:	A- FAT32
Answer: C, D  Question 9  Question Type: MultipleChoice  (Optional) When the following occurs, the Huawei OceanStor 9000 system does not start load balancing?  Options:	B- NTFS
Answer: C, D  Question 9  Question Type: MultipleChoice  (Optional) When the following occurs, the Huawei OceanStor 9000 system does not start load balancing?  Options:	C- NFS
Question 9 Question Type: MultipleChoice  (Optional) When the following occurs, the Huawei OceanStor 9000 system does not start load balancing?  Options:	D- CIFS
Question 9  Question Type: MultipleChoice  (Optional) When the following occurs, the Huawei OceanStor 9000 system does not start load balancing?  Options:	
Question 9  Question Type: MultipleChoice  (Optional) When the following occurs, the Huawei OceanStor 9000 system does not start load balancing?  Options:	Answer:
Question Type: MultipleChoice  (Optional) When the following occurs, the Huawei OceanStor 9000 system does not start load balancing?  Options:	C, D
Options:	
Question Type: MultipleChoice  (Optional) When the following occurs, the Huawei OceanStor 9000 system does not start load balancing?  Options:	
(Optional) When the following occurs, the Huawei OceanStor 9000 system does not start load balancing?  Options:	Question 9
Options:	Question Type: MultipleChoice
Options:	(Ontional) When the following cooking the Unique: Occor Ctor 2000 evetors does not start load belonging:
	(Optional) when the following occurs, the Huawei OceanStor 9000 system does not start load balancing?
	Options:
A- Add a node	A- Add a node

B- Add a hard disk
C- The hard disk appears 3 times offline within 10 minutes
D- Hard disk pre-failure
Answer:
C
Question 10
Question Type: MultipleChoice
(Judgment) With Huawei OceanStor 9000 Device Manager, we can view the real-time OPS performance indicators of the system.
Options:
A-T
B- F
Answer:

#### **Question Type:** MultipleChoice

Single-selection) Which of the following features of the OceanStor 9000 provides the features of the file system snapshot?

### **Options:**

- A- InfoLocker
- **B-** InfoStamper
- **C-** InfoProtector
- D- InfoEqualizer

#### **Answer:**

В

# **Question 12**

### **Question Type:** MultipleChoice

Multi-selection) The OceanStor 9000 uses Erasure code technology to protect dat

a. If a site has 6 nodes, and the customer wants to

In the case where one strip breaks three discs, the data can still be recovered. The redundancy levels that can be used are:

### **Options:**

A- 4+3:1

**B-** 6+3

C- 4+2

D- 12+3:1

### **Answer:**

A, D
