- D- The same project.

Answer:

D

Question 2

Question Type: MultipleChoice

During iteration planning, the team is discussing the design for a user story. A team member states that a design document should be started since the system is complex in nature. Another team member responds that in Agile there is no documentation. How should the ScrumMaster respond?

Options:

- A-** Agree that documentation should be avoided, since it slows the progress of the team.
- B-** Explain that interactions are valued over documentation, but documentation is not forbidden.
- C-** Ask the manager if the technical processes mandate that designs be documented.
- D-** Ask the Product Owner if it is acceptable for the resources to spend time on documentation.

Answer:

B

Question 3

Question Type: MultipleChoice
