Question 1

Question Type: MultipleChoice

When choosing a camera for extreme low temperature environments, how would Arctic Temperature Control ensure camera longevity?

Options:

- A- The product is always kept cold
- B- The product can handle low ambient temperatures
- C- The product is protected against extreme temperatures
- D- The product performs a stepped start-up at low ambient temperature

Answer:

D

Question 2

Question Type: MultipleChoice

Video motion detection (VMD) in a PTZ camera

Options:

- A-** Is not possible since the camera will activate the VMD every time it is moving.
- B-** Can be used but only when the camera is used as a stationary camera.
- C-** Can be used since the camera is aborting the VMD during movement.
- D-** Is no different compared to a fix camera, since the Axis chip can detect in three dimensions.

Answer:

C

Question 3

Question Type: MultipleChoice

Incorrect colors due to faulty calibration or configuration may result in

Options:

- A- False representation of video footage.
- B- Limiting the possibility of sufficient pixel density for facial recognition.
- C- Increasing bandwidth due to high levels of noise.
- D- The camera automatically switching to black and white mode.

Answer:

A

Question 4

Question Type: MultipleChoice

The advantage of using multicast in the network is that

Options:

- A- Many cameras can share the same network connection.

- B-** The video stream reaches every computer in the network simultaneously.
- C-** The video stream only needs to be sent once, even though there are multiple viewers.
- D-** The video stream is rerouted in case of network dropout.

Answer:

C

Question 5

Question Type: MultipleChoice

Using AXIS Camera Management, which of the following can be performed? (Choose two)

Options:

- A-** Apply templates to devices
- B-** View recorded video
- C-** Upgrade firmware
- D-** Set motion detection windows

E- Configure crossline detection

Answer:

A, C

Question 6

Question Type: MultipleChoice

When zooming in on an object with varifocal or zoom lens, light sensitivity of the camera is

Options:

A- increasing

B- decreasing

C- the same

D- dependent on lens

Answer:

B

Question 7

Question Type: MultipleChoice

While setting up an AXIS Q7404 Video Encoder for control of an analog PTZ using Pelco D protocol, you run into a problem. After uploading of the proper Pelco drivers into the AXIS Q7404 Video Encoder you find that channel 1 is controlling the wrong analog PTZ. Which option below would you adjust to fix this problem so you can avoid changing physical cables?

Options:

- A- IP address
- B- Device ID
- C- Baud rate
- D- Device type

Answer:

B

Question 8

Question Type: MultipleChoice

IP51 and IP52 means that the camera

Options:

- A- Can be placed in or outdoors.
- B- Is resistant to dust and dripping water.
- C- Is vandal resistant.
- D- Is designed for tough environments.

Answer:

B

Question 9

Question Type: MultipleChoice

Gatekeeper is a function that

Options:

- A-** Makes it possible for a PTZ camera to do a guard tour.
- B-** Enables two way audio for communication at a gate.
- C-** Uses video motion detection for detecting if a gate is open.
- D-** Uses video motion to zoom in on an object.

Answer:

D
