Question 1

Question Type: MultipleChoice

An organization wants to upskill their IT staff.

How can they do this in a transformational way?

Options:

A- Prioritize training current employees instead of hiring new recruits with cloud experience.
B- Prioritize giving privileged access to third-party partners and contractors to fill IT knowledge gaps.
C- Create a culture of self-motivated, isolated learning with official training materials.
D- Create a culture of continuous peer-to-peer learning with official training materials.

Answer:

D

Question 2

Question Type: MultipleChoice

An organization wants to introduce a new image recognition login system

What should the organization do to follow SRE principles?

Options:

A- Roll out the new system to a subset of employees to test it out
B- Roll out the new system to all employees to collect as much data as possible
C- Avoid rolling out the new system because it may have security flaws
D- Avoid rolling out the new system because it may violate privacy policy

Answer:

A

Question 3

Question Type: MultipleChoice

How should a multinational organization that is migrating to Google Cloud consider security and privacy regulations to ensure that it is in compliance with global standards?

Options:

A- Comply with data security and privacy regulations in each geographical region
B- Comply with regional standards for data security and privacy, because they supersede all international regulations
C- Comply with international standards for data security and privacy, because they supersede all regional regulations
D- Comply with regional data security regulations, because they're more complex than privacy standards

Answer:

A

Explanation:

Comply with data security and privacy regulations in each geographical regionFor a multi-national corporation, they need to abide not just by international laws, but also regional laws where they do business.
