Question 1

Question Type: MultipleChoice

When deploying FusionAccess's infrastructure virtual machine, if the management plane, service plane, and TC access planes are different from each other through up to

What is the number of network cards deployed?

Options:

A- 2

B- 3

C- 4

D- 5

Answer:

B

Question 2

Question Type: MultipleChoice

What are the necessary network planes in Huawei desktop cloud? (Multiple choice)

Options:

- A- Business plane
- B- Management plane
- C- Storage plane
- D- HDP plane

Answer:

A, B, C

Question 3

Question Type: MultipleChoice

Which of the following statements about storage in linked clones are correct is

Options:

- A- The differential volume and parent volume of a linked-clone desktop must be in the same data storage
- B- The differential volume and template of a linked-clone desktop must be in the same data store
- C- The parent volume and template of a linked clone desktop must be in the same data store
- D- The differential volume of a linked clone desktop, the parent volume and template must be in the same data storage

Answer:

A

Question 4

Question Type: MultipleChoice

What is the realization principle of linked clone icache?

Options:

A- Accelerate the operation of virtual machines by caching the hot data of the linked clone parent volume into the memory cache of the host

The purpose of

B- Reduce the IOPS pressure on the parent volume storage itself

C- When requesting to read data, read it from the leading memory cache, if it cannot be read from the memory cache, it will be sent to the storage

Read data

D- Effectively improve the startup speed of linked clone virtual machines

Answer:

B

Question 5

Question Type: MultipleChoice

Which of the following is not the template type used by desktop cloud?

Options:

A- Full copy

B- Linked clone

C- Fast packaging

D- Quick copy

Answer:

D

Question 6

Question Type: MultipleChoice

In the Huawei desktop cloud, which of the following business scenarios cannot be used by differential disks? (Multiple choice)

Options:

A- Full copy

B- Non-persistent disk

C- Disk expansion

D- Linked clone

Answer:

A, C

Question 7

Question Type: MultipleChoice

Before distributing virtual desktops, you need to create multiple administrator accounts in AD to initialize the configuration in FusionAccess.

Time docking

FusionAccess and allocated to virtual desktop use

Options:

A- Yes

B- Wrong

Answer:

A
