**Answer:**

---

A, B

## Question 6

---

**Question Type:** MultipleChoice

---

(Judgment) FusionStorage Block uses a unique data block slicing technology and data based on DHT Hash

The routing algorithm can evenly distribute the data of the volume to the fault domain of a larger resource pool, so that each volume can obtain a larger

IOPS and MBPS performance also makes the load of each hardware resource relatively balanced.

**Options:**

---

A- T

B- F

**Answer:**

---

A

## Question 7

---

**Question Type:** MultipleChoice

---

(Judgment) Whether the Huawei OceanStor 9000 is upgraded online or offline, it has no impact on device management.

**Options:**

---

**A-** True

**B-** False

**Answer:**

---

B

## Question 8

---

**Question Type:** MultipleChoice

---

(Judgment) The InfoLocker feature of OceanStor 9000 can be used to meet the business scenario of one write and multiple read.

**Options:**

---

**A-** True

**B-** False

**Answer:**

---

A

## Question 9

---

**Question Type:** MultipleChoice

---

(single choice) In the Huawei OceanStor 9000, which of the following is not an authentication method supported by NFS sharing?

**Options:**

---
