**Answer:**

---

B

## Question 4

---

**Question Type: MultipleChoice**

---

An implementation professional uses the customer\_overrides.properties file to override properties in the Inventory Management category of yfs.properties. In order for the Real-Time Availability Monitor (RTAM) to correctly handle all the unassigned demands (e.g. backorder), which two property values must be set to T? (Select two.)

**Options:**

---

- A- yfs.nodecapacity.lock
- B- yfs.balanceShortageAcrossNodes
- C- yfs.hotsku.useHotSKUFeature
- D- yfs.inventory.sortandlock
- E- yfs.considerUnassignedDemands

**Answer:**

---

B, E

## Question 5

---

**Question Type:** MultipleChoice

---

In IBM Sterling Order Management (OMS), an implementation professional needs to define the menu options that a specific user will see. How should this requirement be configured?

### Options:

---

- A-** Default menu options can be modified in the profile properties file created in the OMS installation folder
- B-** Personalized menu options can be developed using pre-defined Java class files located in the <INSTALL\_DIR>/externalDeployments folder.
- C-** New menu options can be configured in the Application Manager. This menu will be defined for a specific user, so it is not necessary to include this new menu in menu groups.
- D-** New menu options for a specific user can be defined in the Application Manager As with any other menus options defined in the solution, it should be included in a menu group.

### Answer:

---

D

## Question 6

---

**Question Type:** MultipleChoice

---

In which scenario would an implementation professional add a new entry in the customer\_overrides.properties file?

### Options:

---

- A- To change the value of a property that is not parameterized in the yfs.default properties file
- B- To change the value of a property that is not parameterized in setupfiles.cmd file
- C- To change the value of a property that is not parameterized in the sandbox.cfg file
- D- To change the value of a property that is not parameterized in the \* in file(s)

### Answer:

---

D
