- B) After the business and data are processed through edge computing, they do not need to be uploaded to the platform
- C) Edge computing can process all services and data on the terminal side
- D) Edge computing can meet the needs of users for real-time, intelligence, and data storage

**Answer:**

---

A, D

## Question 3

---

**Question Type: MultipleChoice**

---

Among the following communication technologies, the wired communication technology is

**Options:**

---

- A) Zigbee
- B) RF6LoWPAN
- C) RS485
- D) 3G/LTE
- E) PLC
- F) M-BUS
- G) ETH

**Answer:**

---

C, E, F, G

## Question 4

---

**Question Type: MultipleChoice**

---

The MQTT protocol adopts a request/response working mode, and the client subscribes to the server for information of interest

**Options:**

---

A) True

B) False

**Answer:**

---

A

## Question 5

---

**Question Type: MultipleChoice**

---

Relay protection, which acts on switches (circuit breakers), is mainly used for line protection in sections between substations, isolates short-circuit faults, and protects primary equipment (transformers, switches) from

damage

**Options:**

---

A) True

**B) False**

**Answer:**

---

A

## Question 6

---

**Question Type: MultipleChoice**

---

The eDRX power saving technology further extends the sleep period of the terminal in idle mode, reduces unnecessary startup of the receiving unit, and greatly improves the downlink reachability compared to psm

**Options:**

---

**A) True**

**B) False**

**Answer:**

---

A

## Question 7

---

**Question Type:** MultipleChoice

---

Among the following options, the advantages of the Huawei LiteOS operating system kernel are

### Options:

---

- A) Ultra-small core
- B) High stability
- C) Low power consumption
- D) Quick start
- E) Compatible with Linux

### Answer:

---

A, B, C, D

## Question 8

---

**Question Type:** MultipleChoice

---

MuLti-tone is a necessary function of terminal equipment, while Single-tone is an optional function

**Options:**

---

A) True

B) False

**Answer:**

---

A

## Question 9

---

**Question Type: MultipleChoice**

---

eMTC can be applied to the Internet of Vehicles and video surveillance scenarios

**Options:**

---

A) True

B) False

**Answer:**

---

A
