Question 1

Question Type: MultipleChoice

You are a consultant and are regularly hired by the Ministry of Defense to perform analyses. Since the assignments are irregular, you outsource the administration of your business to temporary workers. You dont want the temporary workers to have access to your reports. Which reliability aspect of the information in your reports must you protect?

Options:

- A) Availability
- B) Integrity
- C) Confidentiality

Answer:

C

Question 2

Question Type: MultipleChoice

You have a small office in an industrial area

a. You would like to analyze the risks your company faces. The office is in a pretty remote location; therefore, the possibility of arson is not entirely out of the question. What is the relationship between the threat of fire and the risk of fire?

Options:

- A) The risk of fire is the threat of fire multiplied by the chance that the fire may occur and the consequences thereof.
- B) The threat of fire is the risk of fire multiplied by the chance that the fire may occur and the consequences thereof.

Answer:

A

Question 3

Question Type: MultipleChoice

You own a small company in a remote industrial area. Lately, the alarm regularly goes off in the middle of the night. It takes quite a bit of time to respond to it and it seems to be a false alarm every time. You decide to set up a hidden camera. What is such a measure called?

Options:

- A) Detective measure
- B) Preventive measure
- C) Repressive measure

Answer:

A
