Question 1

Question Type: MultipleChoice

When Cloud Security Posture Management discovers non-compliant cloud resources, CloudBot applications perform automated remediation's to correct any violations. How true is this statement?

Options:

- A- This is true, however it requires Full Protection access to the Cloud Account to perform automated remediation
- B- This is not true, Cloud Security Posture Management (CSPIU) can only report non-compliance and cannot remediate by itself
- C- This is partially true, however the automated remediation is not done by CloudBot applications but it is done by the Security Management Server
- D- This is not true because CloudBot applications are used to provide chat service to respond to non-compliance alerts

Answer:

A
