Question 1

Question Type: MultipleChoice

What should you do if you are looking at a strategic win with a customer and the customer wants to examine Cisco ISE for longer than a few weeks?

Options:

- A- Point them to our dCloud demo library.
- B- Give them our ISE YouTube videos.
- C- Set them up with a dCloud account.
- D- Give them some of our flash files that can be played on any browser.
- E- Provide them with a downloadable POV kit.
- F- Set them up with an account on a Cisco UCS server that hosts ISE.

Answer:

E

Question 2

Question Type: MultipleChoice

Which two options help you sell Cisco ISE? (Select two.)

Options:

- A- Showcasing the entire ISE feature set
- B- Referring to TrustSec as being only supported on Cisco networks
- C- Discussing the importance of custom profiling
- D- Explaining ISE support for 3rd party network devices
- E- Downplaying the value of pxGrid as compared to RESTful APIs

Answer:

A, D

Question 3

Question Type: MultipleChoice

Which two statements regarding Cisco SD-WAN vEdge routers can mitigate DoS attacks against the infrastructure? (Select two.)

Options:

- A- The vEdge routers run on hardened Linux operating systems.
- B- Only authorized controllers are allowed to communicate back to the vEdge router after the vEdge router establishes connection with the controllers.
- C- In case of direct Internet access, the only traffic allowed back is the traffic matching the state table entries on the vEdge router.
- D- Open Certificate Authority and automated enrollment feature.
- E- By default, all incoming traffic is denied at the transport (WAN) side interfaces.

Answer:

B, C

Question 4

Question Type: MultipleChoice

Which protocol runs between the vSmart controllers and between the vSmart controllers and the vEdge routers, and unifies all control plane functions under a single protocol umbrella?

Options:

- A- OMP
- B- BGP
- C- VRRP
- D- IKE
- E- OSPF

Answer:

A

Question 5

Question Type: MultipleChoice

Which is a function of the Proactive Insights feature of Cisco DNA Center Assurance?

Options:

- A- enabling you to quickly view all of the contextual information related to a single user
- B- pointing out where the most serious issues are happening in the network
- C- enabling you to see the complete path of packets from the client to the end application
- D- generating synthetic traffic to perform tests that raise awareness of potential network issues

Answer:

D

Question 6

Question Type: MultipleChoice

Which two statements are true regarding SD-WAN demonstrations? (Select two.)

Options:

- A- As a Cisco SD-WAN SE, you should you should spend your time learning about the technology rather than contributing to demo innovation.
- B- During a demo, you should demonstrate and discuss what the team considers important details.
- C- During a demo, you should consider the target audience and the desired outcome.
- D- Use demonstrations primarily for large opportunities and competitive situations.
- E- There is a big difference between demos that use a top down approach and demos that use a bottom up approach.

Answer:

C, E

Question 7

Question Type: MultipleChoice

What are three ways in which Cisco ISE learns information about devices? (Choose three.)

Options:

- A- RPC mechanism via HTTPS
- B- RADIUS attributes
- C- network servers the device has accessed
- D- user authentication to the ISE
- E- traffic generated by the device
- F- SMTP agents

Answer:

A, B, E
