Case Study: Mix Questions

Mix Questions

MB-330 Mix Questions IN THIS CASE STUDY

A company uses Dynamics 365 Supply Chain Management. The company plans to add trucks to the existing truck fleet over the upcoming months.

The company requires truck drivers to complete a daily self-inspection of their trucks. The government requires that commercial trucks are inspected annually by a certified repair facility.

The fleet manager wants to minimize the amount of time the truck is in the shop.

* When a truck driver reports a problem during the daily inspection that requires a repair and is within a week of the annual inspection, the company requires that both events occur at the same time in the shop.

* The annual inspection can vary on due date for both new and existing trucks.

You must configure the requirements to minimize truck downtime.

What should you configure for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement	Configuration
Establish maintenance plan for all trucks.	Asset types, time Asset types, time Asset types, counter Individual asset, time Individual asset, counter
Ensure annual inspection is completed if it is due within a week of a reported maintenance issue.	Time fence Time fence Tolerance days Finish within days

Question 2

Question Type: OrderList

New order items arrive from vendors and come into a company's main warehouse.

You must set up internal transportation processes in Dynamics 365 for Finance and Operations to distribute goods to other locations.

You need to set up inbound orders through transportation management.

In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

Actions

Confirm a load for shipping

Plan appointments for a load

Assign a rate and route to the inbound load

Register driver check-in and check-out for an appointment

Create or modify an inbound load for shipping

Answer Area

Answer Area

Create or modify an inbound load for shipping

Assign a rate and route to the inbound load

Confirm a load for shipping

Plan appointments for a load

Register driver check-in and check-out for an appointment

Answer:

Create or modify an inbound load for shipping
Assign a rate and route the inbound load
Confirm a load for shipping
Plan appointments for a load
Register driver check-in and check-out for an appointment

Question 3

Question Type: MultipleChoice

SIMULATION

You are a functional consultant for a company named Contoso Entertainment System USA (USMF).

You plan to manage safety stock level.

You need to configure a minimum stock level of 1,500 units for an item named StandardSpeakerUpSel in warehouse number 13.

To complete this task, sign in to Dynamics 365 portal.

Options:

A- See explanation below

Answer:

A

Explanation:

Select Product information management > Products > Released products and then select the product (StandardSpeakerUpSel), and then on the Action Pane, in the Plant tab, in the Coverage group, select Item coverage to open the Item coverage page.

Select Min/Max in for the Coverage code and enter the value 1,500 for the Minimum value.

Question 4

Question Type: MultipleChoice

You identify a new vendor.

You must create a purchase agreement for the vendor that includes direct invoicing and insurance.

You need to create a classification for the purchase agreement.

What should you do?

Options:

- A- Set the value for Certification to Yes. Set the value for Requires direct invoicing to No.
- B- Set the value for Certification to No. Set the value for Requires direct invoicing to No.
- C- Set the value for Certification to Yes. Set the value for Requires direct invoicing to Yes.

D- Set the value for Certification to No. Set the value for Requires direct invoicing to Yes.

Answer:

C

Question 5

Question Type: MultipleChoice

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A process manufacturer is implementing Dynamics 365 Supply Chain Management to produce sports energy bars, beverages, and nutritional supplements.

The company must run a series of quality control tests for all its beverage items for each production run after the items are completed from a production job.

The testing process for all beverages must follow the same process. The energy bars and nutritional supplements have their own testing requirements.

The specific tests are not yet defined.

You need to configure the quality associations in preparation for the requirements.

Solution: Create a test group for all beverage items. Create a quality association with Reference type as Production and Item code as All. Assign the test group to the quality association. Set Event type to Report as finished. Set Execution to After.

Does the solution meet the goal?

Options:

A- Yes

B- No

Answer:

B

Question 6

Question Type: MultipleChoice

A company enables purchase trade agreements for Planning Optimization.

You need to be able to evaluate purchase trade agreements.

Which three configurations must be set up? Each correct answer presents part of the solution.

Choose all answers that apply.

Options:

- A- Find trade agreement
- B- Search criterion
- C- Agreements marked as effective
- D- Purchase agreements with status of confirmed
- E- Activate price/discount

Answer:

A, B, E

Explanation:

<https://docs.microsoft.com/en-us/dynamics365/supply-chain/master-planning/planning-optimization/purchase-trade-agreement>

Question 7

Question Type: MultipleChoice

A company runs out of inventory in warehouse 22 but has overstock in warehouse 11. The warehouses are

linked to the same site.

The inventory must be moved from warehouse 11 to warehouse 22. The company must retain ownership of

the inventory financially and be able to generate reports as to where the inventory value resides

at all times.

You need to create an order to move the stock.

What should you do?

Options:

- A- Create a transfer order from the transit warehouse to warehouse 22.
- B- Create a transfer order from warehouse 11 to the transit warehouse.
- C- Create a transfer order from warehouse 11 to warehouse 22.
- D- Create a sales order for warehouse 11 and a purchase order for warehouse 22.

Answer:

C

Question 8

Question Type: MultipleChoice

A manufacturing company uses 365 Supply Chain Management.

The procurement manager updates the minimum stock levels by using the safety stock journal. The manager encounters a setup error while calculating the proposal for the minimum inventory level by using the service level option.

You need to identify the cause of the error.

What is the cause of the error?

Options:

- A- The Multiplication factor value was left blank.
- B- The use the calculated minimum quantity the new minimum quantity option was not used.
- C- The Lead time margin was left blank.
- D- The Calculate standard deviation option was not used while creating the journal lines.
- E- Safety stock journal lines were created by including the current month's transactions.

Answer:

D

Explanation:

<https://docs.microsoft.com/en-us/dynamics365/supply-chain/master-planning/safety-stock-journal>
