Question 1

Question Type: MultipleChoice

Universal containers (UC) wants to implement Delegated Authentication for a certain subset of Salesforce users. Which three items should UC take into consideration while building the Web service to handle the Delegated Authentication request? Choose 3 answers

Options:

- A- The web service needs to include Source IP as a method parameter.
- B- UC should whitelist all salesforce ip ranges on their corporate firewall.
- C- The web service can be written using either the soap or rest protocol.
- D- Delegated Authentication is enabled for the system administrator profile.
- E- The return type of the Web service method should be a Boolean value

Answer:

A, B, E

Question 2

Question Type: MultipleChoice

Universal containers(UC) has implemented SAML-BASED single Sign-on for their salesforce application and is planning to provide access to salesforce on mobile devices using the salesforce1 mobile app. UC wants to ensure that single Sign-on is used for accessing the salesforce1 mobile app. Which two recommendations should the architect make? Choose 2 answers

Options:

- A- Use the existing SAML SSO flow along with user agent flow.
- B- Configure the embedded Web browser to use my domain URL.
- C- Use the existing SAML SSO flow along with Web server flow
- D- Configure the salesforce1 app to use the my domain URL

Answer:

A, D

Question 3

Question Type: MultipleChoice

Northern Trail Outfitters would like to use a portal built on Salesforce Experience Cloud for customer self-service. Guests of the portal be able to self-register, but be unable to automatically be assigned to a contact record until verified. External Identity licenses have been purchased for the project.

After registered guests complete an onboarding process, a flow will create the appropriate account and contact records for the user.

Which three steps should an identity architect follow to implement the outlined requirements?

Choose 3 answers

Options:

- A- Enable 'Allow customers and partners to self-register'.
- B- Select the 'Configurable Self-Reg Page' option under Login & Registration.
- C- Set up an external login page and call Salesforce APIs for user creation.
- D- Customize the self-registration Apex handler to temporarily associate the user to a shared single contact record.
- E- Customize the self-registration Apex handler to create only the user record.

Answer:

A, B, E

Question 4

Question Type: MultipleChoice

A real estate company wants to provide its customers a digital space to design their interior decoration options. To simplify the registration to gain access to the community site (built in Experience Cloud), the CTO has requested that the IT/Development team provide the option for customers to use their existing social-media credentials to register and access.

The IT lead has approached the Salesforce Identity and Access Management (IAM) architect for technical direction on implementing the social sign-on (for Facebook, Twitter, and a new provider that supports standard OpenID Connect (OIDC)).

Which two recommendations should the Salesforce IAM architect make to the IT Lead?

Choose 2 answers

Options:

- A- Use declarative registration handler process builder/flow to create, update users and contacts.
- B- Authentication provider configuration is required each social sign-on providers; and enable Authentication providers in community.
- C- For supporting OIDC it is necessary to enable Security Assertion Markup Language (SAML) with Just-in-Time provisioning (JIT) and OAuth 2.0.
- D- Apex coding skills are needed for registration handler to create and update users.

Answer:

B, D

Question 5

Question Type: MultipleChoice

Universal containers (UC) is successfully using Delegated Authentication for their salesforce users. The service supporting Delegated Authentication is written in Jav

a. UC has a new CIO that is requiring all company Web services be RESR-ful and written in .NET. Which two considerations should the UC Architect provide to the new CIO? Choose 2 answers

Options:

- A- Delegated Authentication will not work with a.net service.
- B- Delegated Authentication will continue to work with rest services.
- C- Delegated Authentication will continue to work with a.net service.
- D- Delegated Authentication will not work with rest services.

Answer:

C, D

Question 6

Question Type: MultipleChoice

What are three capabilities of Delegated Authentication? Choose 3 answers

Options:

- A- It can be assigned by Custom Permissions.
- B- It can connect to SOAP services.
- C- It can be assigned by Permission Sets.
- D- It can be assigned by Profiles.
- E- It can connect to REST services.

Answer:

B, C, E

Question 7

Question Type: MultipleChoice

A global company's Salesforce Identity Architect is reviewing its Salesforce production org login history and is seeing some intermittent Security Assertion Markup Language (SAML SSO) 'Replay Detected and Assertion Invalid' login errors.

Which two issues would cause these errors?

Choose 2 answers

Options:

- A- The subject element is missing from the assertion sent to salesforce.
- B- The certificate loaded into SSO configuration does not match the certificate used by the IdP.
- C- The current time setting of the company's identity provider (IdP) and Salesforce platform is out of sync by more than eight minutes.
- D- The assertion sent to 5alesforce contains an assertion ID previously used.

Answer:

A, D

Question 8

Question Type: MultipleChoice

architect is troubleshooting some SAML-based SSO errors during testing. The Architect confirmed that all of the Salesforce SSO settings are correct. Which two issues outside of the Salesforce SSO settings are most likely contributing to the SSO errors the Architect is encountering? Choose 2 Answers

Options:

- A- The Identity Provider is also used to SSO into five other applications.
- B- The clock on the Identity Provider server is twenty minutes behind Salesforce.
- C- The Issuer Certificate from the Identity Provider expired two weeks ago.
- D- The default language for the Identity Provider and Salesforce are Different.

Answer:

B, C
