Question 1

When configuring LDAP with User Directory integration, changes applied to a User Directory template are:

Options:

A- Not reflected for any users unless the local user template is changed.

B- Not reflected for any users who are using that template.

C- Reflected for ail users who are using that template and if the local user template is changed as well.

D- Reflected immediately for all users who are using that template.

Answer:

D

Explanation:

You can change the User Directory templates. Users associated with this template get the changes immediately. If you change user definitions manually in SmartConsole, the changes are immediate on the server.
