Question 1

A decision operation can be defined for a decision service in the Rule Designer. What can be selected in the process of creating a decision operation?

Options:

A- A ruleflow

B- A target server

C- A rule engine type

D- A dynamic domain

Answer:

C

Explanation:

Question 2

Question Type: **MultipleChoice**

Which statement describes the primary role of a developer in the discovery and analysis phase of a project?

Options:

A- Developers develop rules to produce an initial ruleset and object model.

B- Developers do not participate in discovery and analysis tasks.

C- Developers review the rule design document to confirm that terms used in the rules match the execution object model.

D- Developers work with business analysts to identify decision points in the business models and document the decision points table.

Answer:

D

Question 3

When working on rules in both Rule Designer and Decision Center, what is good practice to ensure BOM consistency?

Options:

A- Deprecate obsolete classes and members.

B- Use the merge feature to align discrepancies.

C- Delete BOM classes and members in Rule Designer.

D- Only change arguments in the BOM in Rule Designer.

Answer:

A

Question 4

What is one migration task a developer needs to perform when migrating a legacy business rules application to the latest version of the product?

A- Migrate existing TestSuite files.

B- Migrate the XOM to include business annotations.

C- Migrate existing B2X code from IRL to supported ARL.

D- Update existing web service clients from JSON to XML.

Answer:

C

Question 5

Question Type: **MultipleChoice**

What is the resulting BOM class when the following Java XOM class is imported in the rule project?

```
public interface VehicleTypeClass {
    public String getMake ();
    @BusinessType (value="String")
    public int getModel ();
    public int getYear();
    public void setYear(int year);
    public void upgrade(VehicleTypeClass vehicle);
}
```

A.
```
public interface VehicleTypeClass
{
    public readonly abstract string make;
    public readonly abstract string model;
    public abstract int year;
    public void upgrade(VehicleTypeClass arg);
}
```

```
B. public interface VehicleTypeClass
   {
       public abstract string make;
       public abstract string model;
       public abstract int year;
       public void upgrade(VehicleTypeClass arg);
   }

C. public interface VehicleTypeClass
   {
       public readonly abstract string make;
       public readonly abstract string model;
       public abstract int year;
       public readonly void upgrade(VehicleTypeClass arg);
   }

D. public interface VehicleTypeClass
   {
       public readonly abstract string make;
       public readonly abstract int model;
       public abstract int year;
       public readonly void upgrade(VehicleTypeClass arg);
   }
```

Options:

A- Exhibit

B- Exhibit

C- Exhibit

D- Exhibit

Answer:

C

Question 6

Question Type: MultipleChoice

Which statement is true about the Business Console Administration tab?

Options:

A- Administration tasks can be done only in Enterprise Console.

B- Only users with 'rtsAdministrator' role have access to this tab.

C- Only users with 'rtsAdministrator' or 'rtsInstaller' roles have access to this tab.

D- Only users with 'rtsAdministrator' or 'rtsConfigManager' roles have access to this tab.

Answer:

B

Explanation:

Question 7

Question Type: **MultipleChoice**

How are objects removed from working memory?

Options:

A- clearObject ()

B- removeobject()

C- delete statement

D- retract statement

Answer:

B

Question 8

Question Type: MultipleChoice

The screenshot below describes permissions granted to the group "Eligibility"

Save Permissions | Cancel | View Effective Permissions | ? Help

You are currently editing the permissions for the group: Eligibility ▼

Actions		PERMISSION	TYPE	PROPERTY	VALUE
☐	▲ ▼	Create	Action Rule	-	Yes
☐	▲ ▼	Create	*	-	No
☐	▲ ▼	View	*	-	Yes
☐	▲ ▼	Update	Decision Table	*	Yes
☐	▲ ▼	View	Smart Folder	-	Group

Which two statements are true about a user in the group "Eligibility"?

Options:

A- The user can view Queries.

B- The user can view Ruleflows.

C- The user can create Action Rules.

D- The user can update Action Rules.

E- The user can create Decision Tables.

Answer:

C, D

Question 9

A company wants to implement a business rules solution for warranty claims on their widgets. The customer requires that servers should not store any information about the context of clients between calls and must have a strict enforcement of objects, rules and constraints. The implementation must support complex operations and synchronous calls. Integration with other services must be platform independent. What implementation best fits the customers requirements?

Options:

A- Use a local EJB rule session.

B- Implement an MDB with JSON format.

C- Use an HTDS SOAP web service and JSON format.

D- Implement a custom SOAP web service and XML format

Answer:

C

Question 10

What is the IlrJMXRuleAppMBean API used for?

Options:

A- To manage ruleapp project

B- To manage ruleset resources

C- To create, list, and remove RuleApps (name and version)

D- To create, list, and remove rulesets (name and version)

Answer:

C

Question 11

A company wants to use ODM rules for a graphical user interface (GUI) validation. They want to use rules to validate forms filled out by customers. The rules would validate user input and answers to the questions. The users must have the ability to navigate the website while waiting for the ODM response. What implementation should they use?

Options:

A- Implement a REST rule service in the XML format.

B- Implement a HTDS rule session to handle the request and response web service call.

C- Use an EJB rule session to handle changing the state of objects in working memory.

D- Use an asynchronous ruleset execution and an observer to end the execution or catch an exception on failure.

Answer:

D

Question 12

Question Type: MultipleChoice

When creating a new metric for simulation in Decision Center, which two types are valid? (Select two.)

Options:

A- Null

B- Float

C- String

D- Domain

E- Wildcard

Answer:

C, D
