Options:

A- Increased cost for licensing mobile applications

B- Configuring the corporate e-mail server to work with mobile devices

C- Inability to control access to company data if the device is stolen or lost

D- Providing training for employees on how to use mobile devices with company applications

Answer:

C

Question 2

Patrick visits his teenage daughter's social media page and discovers several offensive posts about one of her classmates. After speaking with his daughter, Patrick learns that several other girls in her class are upset with the classmate and have been posting, texting and e-mailing others about the girl. What is the best way for Patrick to help his daughter understand cyber bullying?

Options:

A- He should advise his daughter to ignore the posts, texts and c-mails.

B- He should explain to his daughter that she is participating in the bullying by accepting others'posts, texts and c-mails.

C- He should explain to his daughter that the Internet embraces freedom of speech, and anyone is allowed to write anything.

D- He should advise his daughter to delete all the posts, texts and c-mails she has received, as well as any new ones that appear.

Answer:

B

Question 3

Question Type: **MultipleChoice**

You have just been hired by a large company, and the IT manager is giving you an overview of the corporate network. He tells you that the corporation is spread out over several cities, and various departments are divided into subnetworks that are connected using routers.

What type of network are you being shown?
