Question 6

Question Type: MultipleChoice

Your company uses a whitelisting approach to manage third-party apps and add-ons. The Senior VP of Sales & Marketing has urgently requested access to a new Marketplace app that has not previously been vetted. The company's Information Security policy empowers you, as a Google Workspace admin, to grant provisional access immediately if all of the following conditions are met:

Access to the app is restricted to specific individuals by request only.

The app does not have the ability to read or manage emails.

Immediate notice is given to the Infosec team, followed by the submission of a security risk analysis report within 14 days.

Which actions should you take first to ensure that you are compliant with Infosec policy?

Options:

- A-** Move the Senior VP to a sub-OU before enabling Marketplace Settings > "Allow Users to Install Any App from Google Workspace Marketplace."
- B-** Confirm that the Senior VP's OU has the following Gmail setting disabled before whitelisting the app: "Let users delegate access to their mailbox."
- C-** Add the Marketplace app, then review the authorized scopes in Security > Manage API client access.
- D-** Search the Google Workspace support forum for feedback about the app to include in the risk analysis report.
