Question 1

Question Type: MultipleChoice

A customer wants to create a single Nimble Storage SAN that provides both a Production primary storage area and a Test/Dev storage area that will allow application volumes from the Test/Dev area to be migrated to the Production area without disruption

What should you recommend?"

Options:

- A-** Use two HPE Nimble storage Groups.
- B-** Use a single HPE Nimble Storage Group pool, and use a backup application.
- C-** Use two HPE Nimble Storage Groups and a backup application
- D-** Use a single HPE Nimble Storage Group with two pools

Answer:

D

Question 2

Question Type: MultipleChoice

A customer needs to replace an existing Dell EMC backup-to-disk solution with an HPE solution to integrate with an HPE 3PAR solution.

Which tool should you use to begin your assessment of the customer environment?

Options:

- A- HPE inToSight
- B- DD Analyzer
- C- SAF Analyze
- D- Ninja Crawler

Answer:

C

Question 3

Question Type: MultipleChoice

A customer needs a solution that will scale out with multiple arrays for replication and will guarantee increased IOPS over the life of the solution.

Which HPE program should you leverage in your solution to help meet the customer's requirements?

Options:

- A- HPE SimpliVity HyperGuarantee
- B- HPE Store More Guarantee
- C- HPE Nimble Timeless storage
- D- HPE Get 6-Nines Guarantee

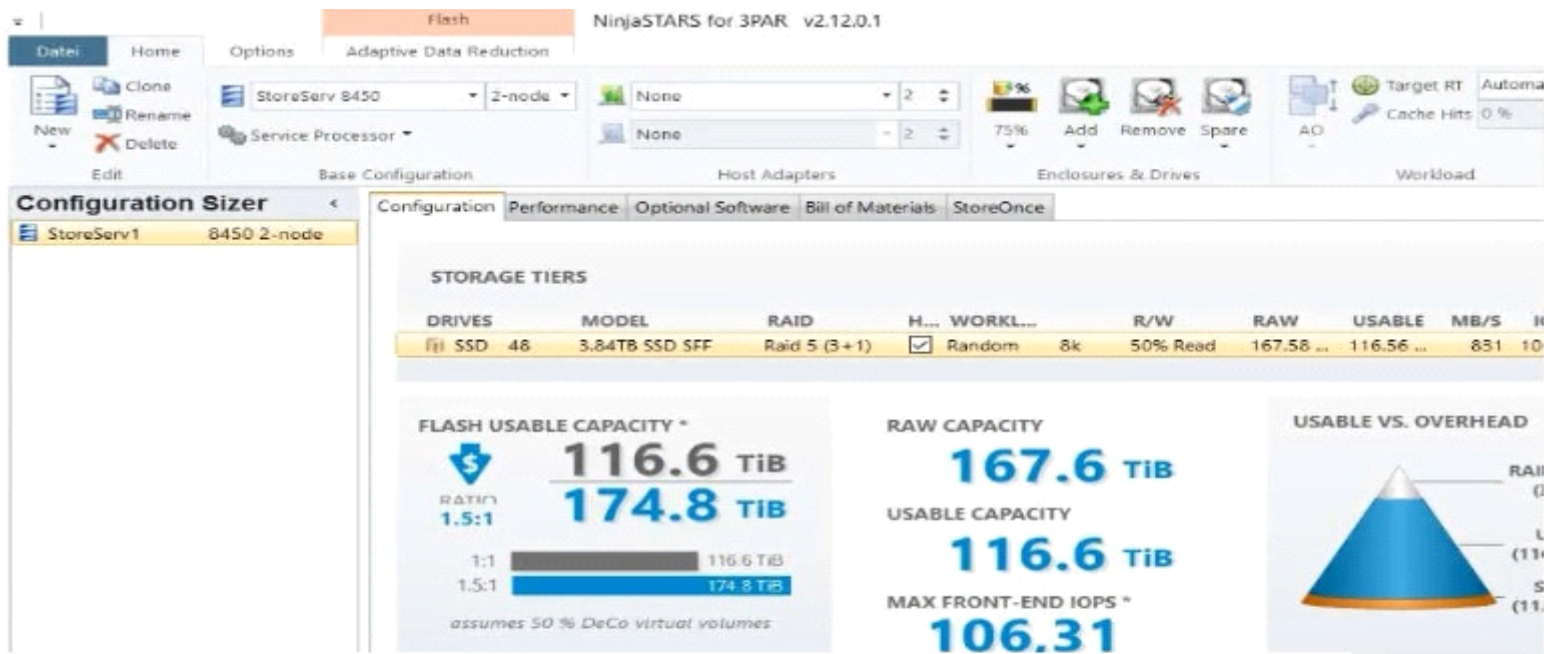

Answer:

C

Question 4

Question Type: MultipleChoice

Refer to the exhibit.

Part Number	Description	Qty
H6Z17B	HPE 3PAR 8450 2-node Storage Base	1
H6Z26A	HP 3PAR StoreServ 8000 SFF(2.5in) SAS Drive Enclosure	3
K2P91B	HPE 3PAR 8000 3.84TB SFF SSD	48
K2R28A	HP 3PAR StoreServ SPS Service Processor	1
L7E72A	HPE 3PAR 8450 All-inclusive Multi-system Software LTU	1

A customer requests a solution for two 3PAR 8450 storage arrays using synchronous replication. The customer wants the array configured to...

A junior architect you are coaching created the configuration shown for each array

What should you add to the configuration for each array to meet customer performance requirements?

Options:

- A- 32 additional SSD drives
- B- SAS bus multiplexers
- C- 4 additional disk enclosures
- D- 1 additional pair of nodes

Answer:

D

Question 5

Question Type: MultipleChoice

What is one of the advantages of protecting HPE 3PAR File Persona with RMC?

Options:

- A- MS SQL data consistency is provided
- B- Single file recovery is possible
- C- Transparent failover is offered If clients are using SMB 3.0, even if you recover to another 3PAR
- D- Backup throughput will be considerably faster than other backup methods

Answer:

D

Question 6

Question Type: MultipleChoice
