Question 1

Question Type: MultipleChoice

A network administrator needs to configure firewall rules for three roles:

- * Finance
- * Sales
- * Employee

Several rules apply to both the Employee and Sales roles, but not to the Finance role. What is the simplest way to configure these rules?

Options:

- A)** Define the Employee and Sales roles as internal roles, and then configure the rules as global rules for internal users.
- B)** Apply these rules as a subnet-based policy, and then ensure that only Employee and Sales users are assigned IP addresses in that subnet.
- C)** Select either the Employee or Sales role, and then configure these rules within the global policy.
- D)** Create a policy with these rules, and then apply that policy to the Employee and Sales roles.

Answer:

D

Question 2

Question Type: MultipleChoice

A network administrator needs to configure firewall rules for three roles:

- * Finance
- * Sales
- * Employee

Several rules apply to both the Employee and Sales roles, but not to the Finance role. What is the simplest way to configure these rules?

Options:

- A)** Define the Employee and Sales roles as internal roles, and then configure the rules as global rules for internal users.
- B)** Apply these rules as a subnet-based policy, and then ensure that only Employee and Sales users are assigned IP addresses in that subnet.
- C)** Select either the Employee or Sales role, and then configure these rules within the global policy.

D) Create a policy with these rules, and then apply that policy to the Employee and Sales roles.

Answer:

D
