Question 1

Question Type: MultipleChoice

Which of the following options is not a component of the bare metal service system architecture

Options:

- A- ironic-conductor
- B- nova-compute-ironic
- C- ironic-api
- D- ironic-dhcp

Answer:

D

Question 2

Question Type: MultipleChoice

After configuring the graphics card on the Huawei Desktop Cloud server, which of the following functions can be achieved by the virtual desktop running on the server

can? (Multiple choice)

Options:

- A- Access the graphics card on the server through GPU pass-through technology to obtain high-performance image processing capabilities
- B- Access the graphics card on the server through GPU hardware virtualization technology to obtain high-performance graphics processing capabilities
- C- Through the GPU focus function, all network cards are served as a virtual desktop, so as to obtain ultra-high-performance image processing
Reason
ability
- D- Through the mutual disassembly function of GPU hardware, different virtual machines can only use one of the graphics cards, thus ensuring the performance of the graphics cards.
can
Can be divided evenly
Provision every virtual machine desktop

Answer:

A, B

Question 3

Question Type: MultipleChoice

Desktop Cloud supports two redirection methods for U disk devices, namely USB redirection and file redirection.

bbs.hh010.com

Options:

A- Yes

B- Wrong

Answer:

B

Question 4

Question Type: MultipleChoice

The recommended actions for FusionAccess maintenance tasks performed weekly are:

Options:

A- Infrastructure server operating system patch update

B- Infrastructure component status monitoring

C- User virtual machine restart

D- System alarm monitoring

Answer:

B

Question 5

Question Type: MultipleChoice

Which of the following services are included in the role of sys-server in Huawei FusionSphere OpenStack? (Multiple choice)

Options:

- A- cps
- B- apacheproxy
- C- ntp
- D- haproxy

Answer:

A, B, C, D

Question 6

Question Type: MultipleChoice

A physical machine has one CPU in total. The CPU has 4 cores and 8 threads. Fusioncompute creates virtual machines on the host, and each virtual machine is allocated

A vcpu, may I have several such virtual machines running on the physical host at the same time:

Options:

- A- 4
- B- 8
- C- 32
- D- Insufficient conditions to calculate

Answer:

D

Question 7

Question Type: MultipleChoice

In the HUAWEI cloud computing scenario, the applicable scenarios for main and backup disaster recovery based on OceanStor V3 storage are:

Options:

- A- The server is powered off unexpectedly
- B- Virtual machine live migration
- C- Virtual machine failure
- D- Storage failure

Answer:

D

Question 8

Question Type: MultipleChoice

In FusionAccess R6, what are the components that use the linux operating system? (Multiple choice)

Options:

- A- ITA
- B- DNS
- C- HDC
- D- TC

Answer:

A, C

Question 9

Question Type: MultipleChoice

A virtual firewall is a physical firewall divided into multiple logical firewalls, and each logical firewall can independently serve for the enterprise.

Services, provide proprietary

The network environment realizes independent security guarantee.

Options:

A- Correct

B- Error

Answer:

A

P2P
exams

Question 10

Question Type: MultipleChoice

Fusionsphere is closed, there is no open API interface provided to the outside world, and it cannot be connected with third parties

Options:

A- Yes

B- Wrong

Answer:

A

P2P
exams

Question 11

Question Type: MultipleChoice

Which option best is not a feature of FusionCube desktop cloud all-in-one?

Options:

A- Pre-installation of the whole machine

B- Automated application deployment

- C- High-performance graphics processing
- D- Built-in Oceanstor high-performance storage

Answer:

D
