Question 1

Which of the following is different between the wiselink and smartconnect technologies of the Oceanstor 9000?

Options:

A- Domain name resolution function

B- Domain Name Design and Partition Management

C- Rebalance function

D- IP failover function between nodes

Answer:

C

Question 2

A customer has plans to store a large number of files in a directory of Huawei OceanStor 9000. Most of these files are between 64-128K.

In order to improve hard disk utilization and read and write performance, how much should the customer set the strips of files in the file directory?

Options:

A- 16K

B- 32K

C- 64K

D- 128K

Answer:

B

Question 3

Question Type: **MultipleChoice**

Huawei Oceanstor 9000 uses decentralized technology, Wushan distributed file system does not have performance bottlenecks, with the number of nodes

Increase, storage capacity and computing power increase linearly, and finally provide users with linearly increasing bandwidth and concurrent numbers

Options:

A- TRUE

B- FALSE

Answer:

A

Question 4

Question Type: MultipleChoice

The quota types supported by Oceanstor 9000 InfoAllocator are: (multiple choice)

A- Capacity quota

B- File quota

C- Calculating quotas

D- Mandatory quota

Answer:

A, B

Question 5

Question Type: MultipleChoice

What node types does Huawei OceanStor 9000 (V100R001C30) support?

Options:

A- P12

B- P25

C- P36

D- C36

E- C72

Answer:

A, B, C, D

Question 6

Question Type: MultipleChoice

Which of the following is incorrect for the description of the Huawei OceanStor 9000 product?

Options:

A- Oceanstor 9000 uses a non-fully symmetric architecture

B- Oceanstor 9000 provides flexible seamless expansion of 3-288 nodes

C- The Oceanstor 9000 system adopts a fully interconnected and fully redundant networking mode.

D- Oceanstor 9000 adopts distributed cluster architecture with no single point of failure.

Answer:

A

Question 7

Question Type: **MultipleChoice**

On the LINUX client that accesses the Huawei OceanStor 9000 cluster, you can reduce the number of concurrent NFS connections on the client to improve access performance.

Options:

A- TRUE

B- FALSE

Answer:

B

Question 8

Which of the following are the authentication methods that the Huawei OceanStor 9000 storage system does not support? (multiple choice)

Options:

A- AD domain

B- LADP domain

C- Local certification

D- Global authentication

E- NIS certification

Answer:

B, E
