Options:

A) Capacity guarantee

B) Yi Linghua ratio

C) multiple lease

D) Dynamically update the configuration file

Answer:

A, B, C, D

Question 2

In the FusionInsightHDi product, what is the correct understanding of Kafka component deployment planning? "Multiple choices"

Options:

A) Kafka's Producer can specify which consumer the message is consumed by when sending a message

B) When creating a topic, the number of copies must not be greater than the number of currently alive Broker instances, otherwise the topic creation will fail

C) Kafka cannot be configured with data storage directories after installation

D) Kafka will store metadata information in ZooKeeper

Answer:

B, D

Question 3

Question Type: MultipleChoice

What kind of resource management does YARN support in Hadoop system? "Multiple Choices"

A) Memory

B) CPU

C) The internet

D) Disk space

Answer:

A, B

Question 4

Question Type: **MultipleChoice**

Among the following options, is the exact description of the role of the standby NameNode in Huawei Fusioninsight HD system? "Multiple choices"

Options:

A) Hot standby for the main NameNode

B) Prepare NameNode has no memory requirements

C) Help the master NameNode merge the editor's log and reduce the startup time of the master NameNode

D) The standby NameNode should be deployed to a node with the master NameNode

Answer:

A, C

Question 5

Question Type: MultipleChoice

Are the main features of big data understood and described correctly? "Multiple choices"

Options:

A) many sources, many formats

B) grows fast and processing speed is fast

C) has a large amount of storage and a large amount of calculation

D) Low value density of data

Question 6

Question Type: MultipleChoice

Which of the following are the resident processes of the Spark service? "Multiple choices"

Options:

A) JobHistory

B) JDBCServer

C) SparkResource

D) NodeManaaer

Answer:

A, B

Question 7

What is the purpose of a HBase cluster to execute Compaction regularly? "Multiple choices"

Options:

A) Reduce the number of files in the same Region and the same ColumnFamily

B) Improve data read performance

C) Reduce the file data of the same ColumnFamily

D) Reduce the number of files in the same region

Answer:

A, B

Question 8

In the FusionInsightHDi product, what is the correct understanding of Kafka component deployment planning? "Multiple choices"

Options:

A) Kafka's Producer can specify which consumer the message is consumed by when sending a message

B) When creating a topic, the number of copies must not be greater than the number of currently alive Broker instances, otherwise the topic creation will fail

C) Kafka cannot be configured with data storage directories after installation

D) Kafka will store metadata information in ZooKeeper

Answer:

B, D

Question 9

Question Type: MultipleChoice

Are the main features of big data understood and described correctly? "Multiple choices"

Options:

A) many sources, many formats

B) grows fast and processing speed is fast

C) has a large amount of storage and a large amount of calculation

D) Low value density of data

Answer:

A, B, C, D

Question 10

Question Type: **MultipleChoice**

What kind of resource management does YARN support in Hadoop system? "Multiple Choices"

Options:

A) Memory

B) CPU

C) The internet

D) Disk space

Answer:

A, B

Question 11

Question Type: MultipleChoice

What is the purpose of a HBase cluster to execute Compaction regularly? "Multiple choices"

Options:

A) Reduce the number of files in the same Region and the same ColumnFamily

B) Improve data read performance

C) Reduce the file data of the same ColumnFamily

D) Reduce the number of files in the same region

Question 12

Question Type: MultipleChoice

Which of the following are the resident processes of the Spark service? "Multiple choices"

Options:

A) JobHistory

B) JDBCServer

C) SparkResource

D) NodeManaaer

Answer:

A, B
