Question 1

Question Type: MultipleChoice

Huawei's SD-WAN solution can deploy the number of AR routers in a single bank branch in the financial industry.

Options:

A- Mouth 3

B- Mouth 4

C- Mouth 1

D- Mouth 2

Answer:

C

Question 2

Question Type: MultipleChoice

In which scenarios do the USG6000E series need to configure hard disks ().

Options:

A- log

B- Smart Policy's strategy optimization

C- IPS & AV packet capture

D- Port report

Answer:

A, B, C, D

Question 3

Question Type: **MultipleChoice**

Regarding the FC replacement scenario, what are the enhancements of AI Fabric intelligent lossless network compared to ordinary Ethernet networks?

Options:

A- Port static delay

B- server actively switches links in seconds and senses the link status in real time

C- The port switch is configured at a single point of configuration for network-wide synchronous storage server plug-and-play

D- The intelligent lossless DCN based on AI algorithm ensures 100% throughput and zero packet loss

Answer:

B, C, D

Question 4

Question Type: MultipleChoice

What features can WAN SDN support?

Options:

A- intelligent online simulation + maintenance window

B- cross-domain (AS) inter-domain traffic tuning

C- Intelligent predictive analytics

D- Port global/local tuning greatly improves network utilization

E- Tenant-level services are automatically provisioned

Answer:

A, B, C, D, E

Question 5

Question Type: MultipleChoice

The router relies on hardware BFD and FRR technology to achieve high reliability, FRR has LDP FRR and VPN FRR, LDP FRR is tunnel layer protection, VPN FRR is business-level protection.

Options:

A- True

B- False

Answer:

A

Question 6

Question Type: MultipleChoice

Regarding the FC replacement scenario, what are the enhancements of AI Fabric intelligent lossless network compared to ordinary Ethernet networks?

Options:

A- Port static delay

B- server actively switches links in seconds and senses the link status in real time

C- The port switch is configured at a single point of configuration for network-wide synchronous storage server plug-and-play

D- The intelligent lossless DCN based on AI algorithm ensures 100% throughput and zero packet loss

Answer:

B, C, D

Question 7

Question Type: MultipleChoice

The router relies on hardware BFD and FRR technology to achieve high reliability, FRR has LDP FRR and VPN FRR, LDP FRR is tunnel layer protection, VPN FRR is business-level protection.

Options:

A- True

B- False

Answer:

A

Question 8

Question Type: MultipleChoice

In which scenarios do the USG6000E series need to configure hard disks ().

Options:

A- log

B- Smart Policy's strategy optimization

C- IPS & AV packet capture

D- Port report

Answer:

A, B, C, D
