## Question 1

---

**Question Type:** MultipleChoice

---

Which of the following cannot be used to classify IP packets?

**Options:**

---

A- VIAN Priority

B- MAC

C- Protocol type

D- Port number

E- Packet precedence

F- Outbound Interface

**Answer:**

---

F

## Question 2

---

**Question Type: MultipleChoice**

---

Policy-based Routing can be used for traffic classification and marking when deploying QoS. Classification can be made based on ACL and packet length, marking can be made by modifying DSCP or IP Precedence field of packet.

**Options:**

---

**A-** True

**B-** False

**Answer:**

---

A

## Question 3

---

**Question Type: MultipleChoice**

---

When configuring Diff-Serv in QoS, the edge router on Diff-Serv network classify packets according to its source address, destination address or other parameters, assigning different IP precedence for different packets, while other routers classify packets according to IP precedence.

**Options:**

---

- A- True
- B- False

**Answer:**

---

B

## Question 4

---

**Question Type: MultipleChoice**

---

Which of the following statements about the priority of zone in the Eudemon are correct?

**Options:**

---

- A- The priority of the Trust zone is 80
- B- The priority of the Untrust zone is 15
- C- The priority of the DMZ is 50

**D-** The priority of the Local zone is 100

**Answer:**

---

B, C, D

## Question 5

---

**Question Type: MultipleChoice**

---

An internal FTP server wants to provide the ftp service to the internet, which of the following NAT methods can be used?

**Options:**

---

**A-** Destination NAT

**B-** No-PAT

**C-** NAT Server

**D-** NAT Inbound

**Answer:**

---

C

## Question 6

---

**Question Type:** MultipleChoice

---

Administrators can change the priorities of default zones in the firewall as required.

**Options:**

---

**A-** True

**B-** False

**Answer:**

---

B

## Question 7

---

**Question Type:** MultipleChoice

---

Which of the following are two important working stages in PPPoE protocol?

**Options:**

---

- A- Session Stage
- B- NCP
- C- LCP
- D- Discovery Stage

**Answer:**

---

A, D

## Question 8

---

**Question Type: MultipleChoice**

---

What are the three components of PPP?

**Options:**

---

A- NCP (Network Control Protocol)

B- PPPOE

C- LCP (Link Control Protocol)

D- The extension protocol of PPP

**Answer:**

---

A, C, D
