Options:

A- AC 220V power supply

B- DC-60V power supply

C- DC-48V power supply

D- DC-12V power supply

Answer:

D

Question 4

Question Type: MultipleChoice

(single) Is the following description correct?

The MA5600T/MA5680T supports VLAN tag conversion. When SVLANs with different attributes pass through and the service-port creates a service flow, if the tag-transform is set to default, the Tag conversion rules are different.

Options:

A- True

B- False

Answer:

A

Question 5

Question Type: MultipleChoice

(multiple) What are the lists that the TooIBox tool can track?

Options:

A- V5 Layer 2 message tracking

B- H248 signaling tracking

C- MGCP signaling tracking

D- RTCP information

Answer:

A, B, C

Question 6

Question Type: MultipleChoice

(single) Is the following description correct?

The MA5680T supports the direct copying of user packet priorities as the priority of forwarding packets. It also supports local setting of priorities directly on the MA5680T.

Options:

A- True

B- False

Answer:

A

Question 7

Question Type: MultipleChoice

(single) In the GPON network, which of the following statements is incorrect?

Options:

A- Each T-CONT consists of one or more GEM Ports, each carrying a traffic flow. A T-CONT can carry data streams of one or more service types.

B- Each GEM Port is identified by a unique Port-ID. The range of the Port-ID is 0~4095, and is globally allocated by the OLT. That is, each ONU/ONT under the OLT cannot use the GEM with duplicate Port-ID. Port

C- The GEM port identifies the service virtual channel between the OLT and the ONU/ONT, that is, the channel that carries the service flow, similar to the VPI/VCI identifier in the ATM virtual connection.

D- Supports up to 32 ONUs/ONTs per GPON port

Answer:

D

Question 8

Question Type: MultipleChoice

(single) What is the correct description of the user number tracking function?

Options:

A- Only supports H248 protocol

B- Only supports MGCP protocol

C- You can use the phone number to initiate tracing, or you can use the slot port number to initiate tracing.

D- Any user has permission to perform user number tracking in diagnostic mode

Answer:

C

Question 9
